SECTION	F – URGENT ITEMS NOT INCLUDED IN AGENDA	297
SECTION	${\sf I}$ G – TO CONSIDER & ORDER ON COUNCILLOR REPORTS	297
SECTION	NH – IN CAMERA ITEMS	297

SECTION A – PROCEDURAL MATTERS

- Welcome
- Acknowledgement of Country
- Prayer
- Apologies/Leaves of Absence
- Directors/Officers Present
- Confirmation of Minutes
 - 1) Scheduled Meeting Of Council held on 18 May 2021
 - 2) Unscheduled Meeting of Council held on 1 June 2021
 - 3) Unscheduled Meeting of Council held on 8 June 2021
- Disclosures of Conflict of Interest
- Joint Letters and Reading of Petitions
- Public Question Time
- Open Forum

SECTION B - REPORTS

B.21.43 AERODROME CURFEW AND USER FEES AND CHARGES

Responsible Officer: Director Infrastructure

File Number: S09-01-03

Attachments: Nil

Declarations of Interest:

Svetla Petkova - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

Since late 2020, Council has started receiving numerous noise complaints, mostly from Save the Swan Hill Serenity Action Group (SSHSAG), regarding noise generated by aircraft using airspace over Swan Hill for circuit training. This report seeks to provide Council with options for implementing a night time curfew at the Swan Hill and Robinvale Aerodromes to limit circuit training activities by flight training aircraft and discuss the implications of implementing such a curfew in response to the Council notice of motion dated 16 March 2021.

This report also seeks Council's endorsement to proceed with the release for public comment the proposed User Fees and Charges and restrictions on operations for the Swan Hill and Robinvale Aerodromes.

Discussion

The Commonwealth of Australia handed over the Swan Hill and Robinvale Aerodrome's ownership and operations to Swan Hill Rural City Council under a deed signed on 01 July 1991 (enclosed). Since then Council has maintained and operated these airports to the Civil Aviation Safety Authority (CASA) regulations, and other terms and conditions set out with the deed of agreement. Under this deed, Council shall provide unrestricted and non-discriminatory access to all aircraft operators. Aircraft noise is an unavoidable consequence of aviation activity at any airport.

- i. Council's aerodromes are public facilities. They have unrestricted and nondiscriminatory access by airline and aircraft operators on reasonable terms and conditions, consistent with the aerodrome runways' physical limitations and the Civil Aviation Safety Authority standards.
- ii. Council is operating the Swan Hill and Robinvale aerodromes under the Victorian planning provisions and have airport environment overlays (AEO) and development overlays. These ensure that land use and development are compatible with the operation of Council Aerodromes.
- iii. Council's aerodromes are currently unrestricted and allow for 24hours, seven days a week operation and usage by any aircraft suitable to land on the respective runways.
- iv. Currently Council only charges for Aircraft using Council's aerodromes when requiring an aerodrome pavement concession. When an aircraft's gross take-off

- load exceeds 5.70 tons, it triggers an Aerodrome Pavement Concession. Council does not charge for touch and go operations for any lighter aircraft.
- v. Air Services Australia (ASA) operates a national navigation beacon located at Swan Hill, and Aircraft use this location when navigating across Australia.
- vi. ASA manages all complaints and enquiries about aircraft noise and operations through its noise complaints and information service (NCIS). They are the Australian aviation industry's primary interface for the community on aircraft noise.
- vii. ASA process for resolving any issues includes analysis of complaints and inquiries focuses on the issues raised by complainants rather than the number of contacts received from an individual. Using this data, they identify ongoing problems, provide guidance for government departments in developing aviation policy and provide other aviation agencies and industry bodies with information about community concerns.

The purpose of the Airport Environs Overlay is, amongst others:

- To identify areas which are or will be subject to high levels of aircraft noise, including areas where the use of land for uses sensitive to aircraft noise will need to be restricted.
- To ensure that land use and development are compatible with the operation of airports in accordance with the appropriate airport strategy or master plan and with safe air navigation for aircraft approaching and departing the airfield.
- To assist in shielding people from the impact of aircraft noise by requiring appropriate noise attenuation measures in new dwellings and other noise sensitive buildings.
- To limit the number of people residing in the area or likely to be subject to significant levels of aircraft noise.

Figure 1: Swan Hill Airport Environmental Overlay Map

SECTION B - REPORTS

It is important to note that the overlay that governs the above is not affecting the whole of Swan Hill, but only the area as shown in the blue circle in the attached image.

A planning permit would be required, if any of the following use and development fall within the overlay area:

Accommodation.

Art and craft centre.

Bar.

Display home centre.

Education centre.

Hospital.

Hotel.

Office.

Place of assembly.

Research and development centre.

Research centre.

Restricted recreation facility.

Noise Issues

Council has received complaints/requests that vary from raising noise issues to a total ban of training flights. There are three types of requests received:

- 1. Stop Aircraft traffic over individual houses due to noise
- 2. Stop Aircraft flying over Swan Hill
- 3. Stop all training flights into Swan Hill

For requests of the 1st and 2nd type:

CASA is responsible for determining the circuit to fly and its location. The circuit's size and location are determined to ensure the safety of all aircraft operations at the airport. This circuit flying may result in training being undertaken over a populated area close to the airport and taking advantage of the national navigation beacon located at Swan Hill.

For requests of the 3rd type:

Council operates the two aerodromes as public facilities; they have unrestricted and non-discriminatory access by airline and aircraft operators. The Council has no control over what happens in the air but retains the power to determine what happens on the ground.

SECTION B - REPORTS

Air Services Australia fundamental principles are applicable in minimising the impacts of aircraft noise. These principles are:

Principle 1: Noise abatement procedures should be optimised to achieve the lowest possible overall impact on the community.

Principle 2: Noise should be concentrated as much as possible over non-residential areas.

Principle 3: Noise exposure should be fairly shared whenever possible.

Principle 4: No suburb, group or individual can demand or expect to be exempt from aircraft noise exposure.

Council is required to keep these aerodromes operational at all time for medical and other emergency service operation but can restrict some of the ground operations for a particular period.

Figure 2: Swan Hill Aerodrome Noise Complaints for Last Five Years

Most of the noise complaints Council received are during the last three months.

User Fees and Charges

Following Council assembly discussions on 12 January 2021, aerodrome user group consultation including all lease holders was conducted on the 3rd March 2021 to

provide the users with information on the rationale behind proposing aerodrome user charges and fees. The key drivers for the aerodrome user charges are summarized below:

- Aerodrome user charges will help to support the operation of the aerodromes to high standards of safety, security and quality of services.
- Aerodrome user charges will assist Council to have long-term plans to ensure assets are maintained through their life cycle to provide quality service to the users.
- Continued operation of two Aerodromes will assist local businesses and Government and Emergency services, which will provide direct benefit to the communities they serve.
- The proposed fees and charges will help to contribute towards the maintenance costs which would help in alleviating the ratepayers' burden.

Findings from the Consultation Meeting

Consultation has taken place with representatives from all fourteen leaseholders at the Swan Hill Aerodrome and a Save Swan Hill Serenity Action Group (SSHSAG) member.

All feedback has been noted and recorded during the meeting and summarised below.

Suggestions from the audience:

- 1. To consider structuring the charges to favour the local tenants versus the visiting training organisations using the facility for commercial purposes.
- 2. Happy to pay user charges but consider charging the Industrial scale training aircrafts with more fees compared to the fees imposed on locals.
- 3. To contact the Flight Training club regarding the performed night circuits and its noise impact.
- 4. To change the left hand circuit training to right hand at the asphalt runway 08 or change it depending on the time.
- 5. To impose a curfew for circuit training. A suggested curfew to be imposed from 10pm (11pm daylight savings) to 6am.
- 6. To organise more sweeping of the pavement due to the damage the loose stones cause to propellers.
- 7. To not charge the parking fees on the aircraft which are getting serviced at the aerodrome.
- 8. To make the parking fee free for the first 3 days and start charging the subsequent days.
- 9. Terminal Building proposal looks good but use sensor lights instead of timer for lights provision.
- 10. To set up a community advisory committee to get direct input from the aircraft operators and public feedback.
- 11. To organise a monthly meeting with aircraft users only to discuss the airport maintenance issues.

Raised Concerns from the audience:

- 1. Local tenants who own a successful business bring revenues in the town, thus they should not be charged any fees. Namely, general aviation and flying doctors are not in best interest of the community to charge them.
- 2. Audit of all costs incurred to maintain and operate the aerodromes, to be available with all breakdowns of these costs to public.
- 3. Lease holders were concerned on the future increase of these user fees for the aerodromes.
- 4. Monitoring and invoicing the aircraft could cause increase of the risk in safety due to the operators avoiding to make the radio calls, it would decrease the safety in operations.
- 5. Loose stones on the pavement can cause damage to propellers.
- 6. Kangaroos on the taxiway during the night are another concern.

From this consultation meeting, it was noted that 3 out of 14 lease holders and SSHSAG supported the aerodrome user fees, some were against user charges while others were neutral to the charges at the end of the meeting. It was clear that users were more opposed to parking fees than the landing fees.

Following the community engagement, amendments have been made to the proposed Fees and Charges in response to the comments raised in the consultation meeting. The recommended changes with the initial proposed Fees and Charges are listed below in Table 1.

Table 1. Amended Fees and Charges for SHA and RA.

User	Types of Proposed initial		Proposed amended
Group	charges	charges	charges
Group-1 (Visiting aircrafts)	Landing fee \$10 for aircrafts with MTOW<5,700 kg. \$10 for Touch & Goes.		\$10 for aircrafts with MTOW<5,700 kg. \$15 for Touch & Goes.
		Pavement concession required for aircrafts with MTOW > 5,700 kg \$11/Tonne of MTOW	Pavement concession required for aircrafts with MTOW > 5,700 kg \$11/Tonne of MTOW
	Parking Fee	\$10 per 24 hour	\$5 per 24 hour or part there of
Group-2 SH and Robinvale lease holders)	Annual Landing Fees for tenants who lease an area of land at the SHA	Private aircraft \$175/Aircraft Pilot Training Aircraft \$350/Aircraft	\$150/Aircraft

Emergency services aircraft like SES, CFA, Air ambulance and Flying Doctors aircraft are exempted from these fees.

Consultation

A community group, SSHSAG, has provided its view regarding noise issues related to the circuit training.

During the consultation, aerodrome users also suggested considering implementing a night-time curfew from 10 pm (11 pm daylight savings) to 6 am, which we recommended in this report.

Financial Implications

Amended aerodrome user charges will be directly related to civil aviation operations, which will include landing, aircraft parking and pavement concessions fees, which will help offset a proportion of the aerodrome maintenance and operations costs.

The proposed user Fees and Charges have been structured in a non-discriminatory manner and consistent with the current up to date charges used across similar airports and aerodromes across Australia.

Council's annual average operation and maintenance expenditures for Swan Hill and Robinvale aerodromes are \$190k. Income from aerodrome user charges will offset some of these operating expenditures.

Social Implications

The proposed changes to the operating hours of Councils Aerodromes will inconvenience some aerodrome users but may not go far enough to satisfy all complainants and residents. This change will improve the well-being of residents in the Swan Hill region and still allow unrestricted medical and emergency aircraft operation.

Aerodrome user Fees and Charges will help to support the maintenance of the aerodromes to a high standard of safety, security and quality of services, which helps to promote the use of the aerodromes by emergency services like SES, CFA and commercial, business as well as by recreational aviation aircraft.

Economic Implications

The changes to Councils Aerodrome operation hours will have little economic impact on the region due-to:

- The majority of users between the proposed curfew hours are out of region, such as pilot training schools, which do not contribute to the local economy.
- The region currently does not have time sensitive freight or regular passenger transport (RPT) to consider.
- A prohibition for touch and go and circuit operations only will not affect local airport users as they can land when coming home late.
- A curfew will not affect emergency services but will affect some local users.

Should the position change regarding RPT or time-sensitive freight, there will be an impact on the economy should either of these services propose operation during the curfew. In such circumstances, Council can review curfew hours and conditions to support RPT or time-sensitive freight.

The proposed curfew's impact on the current 'touch and go' and circuit training activities will not have any significant economic impact, as fees for these activities are not collected. There is minimal to no contribution to the Swan Hill economy through other means from these activities.

Aerodrome user fees will assist Council to have long-term plans to ensure assets are maintained through their life cycle to provide quality service to the users. Continued operation of these two Aerodromes will assist local businesses and Government and Emergency services, which will provide direct benefit to the communities they serve.

Imposed charges for using the aerodromes might divert some of the flight school operators to other aerodromes that are free of charge to avoid paying fees at SHA or Robinvale.

Environmental Implications

The proposed reduction in hours will help reduce noise during the hours 11pm to 6am. It will also reduce the aircraft emissions pollutant, gasses, and health hazardous particulate matter.

Risk Management Implications

Installation of a monitoring and billing system at the aerodrome to manage all aspects of the invoicing process might cause operational safety risks due to the aircraft operators refraining to make the radio calls to avoid from paying the fees. Approaching aircraft avoiding radio calls is a violation of CASA law.

Council Plan Strategy Addressed

Infrastructure - Infrastructure that appropriately services community needs.

Options

- 1. That Council adopt, amend or abandon user fees at the Swan Hill and Robinvale Aerodromes.
- 2. That Council introduce a prohibition on touch and go and circuit training operations at the Swan Hill and Robinvale Aerodromes between the hours of 11pm-6am.
- 3. That Council introduce a curfew for all aircraft except those involved in medical transport and emergency services operations between the hours of 11pm and 6am at the Swan Hill and Robinvale Aerodromes.

Recommendation

That Council releases for public comment the proposed User Fees and Charges and restrictions on operations for the Swan Hill and Robinvale Aerodromes as set out below:

User Fees and Charges for the Swan Hill and Robinvale Aerodrome effective 1/7/2021

User	Types of	Proposed initial	Proposed amended
Group	charges	charges	charges
Group-1 (Visiting aircrafts)	Landing fee	\$10 for aircrafts with MTOW<5,700 kg. \$10 for Touch & Goes.	\$10 for aircrafts with MTOW<5,700 kg. \$15 for Touch & Goes.
		Pavement concession required for aircrafts with MTOW > 5,700 kg \$11/Tonne of MTOW	Pavement concession required for aircrafts with MTOW > 5,700 kg \$11/Tonne of MTOW
	Parking Fee	\$10 per 24 hour	\$5 per 24 hour or part there of
Group-2 SH and Robinvale lease holders)		Private aircraft \$175/Aircraft Pilot Training Aircraft \$350/Aircraft	\$150/Aircraft

Aircraft involved in Medical and Emergency Services are exempted from these fees.

Proposed restrictions on operations at the Swan Hill and Robinvale aerodromes

Aircraft involved in touch and go and circuit training operations at the Swan Hill and Robinvale aerodromes be prohibited between the hours of 11pm-6am.

B.21.44 ASSET MANAGEMENT – ROAD MANAGEMENT PLAN AND ASSET PLAN 2021

Responsible Officer: Director Infrastructure

File Number: S32-24-03

Attachments: 1 Draft Road Management Plan 2021

2 Register of Public Roads - Draft 2021

3 Report on compliance of RMP

4 Media Release

5 Email Invitation

Peter Corcoran SubmissionMagill Transport Submission

Declarations of Interest:

Svetla Petkova - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This report provides a summary of submissions received regarding the Draft Road Management Plan 2021 and the Register of Draft Public Roads.

Discussion

Council is required to review its Road Management Plan (RMP) under the Road Management Act 2004. The RMP is a plan that details the inspection regime, defect intervention levels and defect repair response times for all nominated road related assets under Council's management.

The plan ensures that the community contributes to and is informed about how Council manages its road assets. It enables the community to comment to Council about the level of service proposed to be funded.

In conducting a review of its plan, Council must ensure that the standards and priorities provided in the inspection, maintenance and repair of the classes of roads are appropriate.

Compliance with the plan limits Council's public liability to legal action from claims for damages for incidents related to these assets.

The RMP was initially adopted by Council on 19 October 2004. It has subsequently been reviewed and amended by Council in 2007, 2009, 2013 & 2017, 2019.

2021 Review

The 2021 RMP Review included several changes to the document from formatting to updates to legislation.

Whilst reviewing the Plan, a comparison of our levels of service with those of neighbouring Councils and other Councils with a similar asset and income base was undertaken. This information is available in the appendices of the change log and indicates that our current levels of service are equivalent or better in most cases.

A full review was conducted on the Register of Public Roads. In Accordance with S.19 Road Management Act, Council must have a Register of Public Roads available to the public. This Register describes the extents of each road and sets the classification level. The classification level of a road guides Council staff on how often a road needs to be inspected as well as providing the maximum response time to attend to defects or hazards. The classification level of a road is related to the usage of the road and therefore the likelihood of a defect causing issues to road users.

The review carried through on work that was done in the previous RMP review when "Secondary Roads" were introduced. However, this review was never formalised in the Register of Public Roads or the road maintenance system.

The Register of Public Roads also now includes several roads that are classed as "Not Responsible". These roads are often assumed to be under Council control so have been included to provide clarity into the future.

Consultation

Internal Consultation

The RMP has been reviewed and communicated internally.

The Register of Public Roads was reviewed road-by-road with a working group including the Director of Infrastructure, Manager of Works, Enterprise Assets Manager, Road Inspectors and Engineering Officers.

External Consultation

Section 54 of the Road Management Act 2004 outlines the procedure for making or amending an RMP. As part of this process, Council must give a notice stating:

- The purpose and general purport of the proposed RMP
- Where a copy of the proposed RMP can be obtained or inspected
- That any person may make a submission on the proposed RMP to the road authority (in this case Council) within the period specified in the notice.

The Act also outlines that a road authority must allow at least 28 days for public submissions.

The community must have the opportunity to review the draft plan prior to adoption. The community has the ability to make submissions which must be dealt with by Council. It is important that community submissions are considered, and if appropriate, incorporated into the plan. Each submission will be investigated to

SECTION B - REPORTS

determine its impact on the budget and Council resources against any change in the plan.

Council Resolved to approve the RMP for community consultation on 20 April 2021. The public were invited to make submissions regarding Draft RMP 2021 and the Register of Public Roads over a four week period between 23 April 2021 and 24 May 2021.

Invitations for submissions were made via advertisements (attachment 2) in The Guardian (23/4/21) and Sunraysia Daily (29/4/21), social media and email invitations to 55 farming, manufacturing and transport contacts through EDU (attachment 3).

17 individual submissions covering 26 separate issues were received.

<u>Capital Request – Widening</u>

There were 2 requests received regarding widening of roads, road widening is not within the scope of the RMP.

Sysaid Number	Submission by	Issue	Response
203876	James Thompson	Little Beveridge Street needs widening & upgrading	"Little Beverage St" is listed in the Register of Public Roads as "Beverage St" with a chainage of 0 - 162 and a class of Access. There is currently no plans for widening of this segment due to the presence of infrastructure such as power, water and trees within the road reserve which would make it difficult and cost prohibitive to widen. However the segment is in listed in our short term capital works program (1-3 years) for some renewal including the kerb and channel which may assist in improving the situation.
203936	Nicole Theobald	The roads out at Tresco/Tresco West all need widening as opposed to the regular band aid fixes they seem to do. They're all too skinny resulting in broken windscreens and scrubbed out tyres due to the flying rocks and having to go off the road to accommodate oncoming traffic. Many a times I've been forced to move further across simply due to others refusing to move across! We may live out in the sticks but that's no excuse for the shoddy roads!!	There are some segments of Tresco Road in our short term (1-3 years) capital plan for renewal which will include road widening where possible. There have been a number of other requests outside of the RMP submissions regarding the ongoing high use of roads around Tresco due to the road works on the Murray Valley Highway, Road Inspectors have been asked to increase their inspection regime on these roads to ensure that hazards and issues can be addressed as soon as possible.

<u>Capital Request – Upgrade</u> There were 4 requests regarding upgrades to roads. Upgrades are outside of the scope of the RMP.

the RMP.			
Sysaid Number	Submission by	Issue	Response
203971	Gregory Edwards	I feel that both sections of Lake Baker road is overdue for being upgraded. Over recent years there's been an increase of traffic with a lot more of it being heavy vehicles travelling to farms along Lake Baker rd and also travelling between the Murray Valley Hwy to the properties on the North Eastern side of Lake Boga. Recent Matainace hasn't left the surface in good condition as even after grading there are still potholes greater than what the guidelines describes as needs action and the surface breaking down to be very rough in a short period. As to the southern end of the road it's only luck that someone hasn't lost control on the corrugation and run off the road. I may be selfish as well but the road in this condition has made it hard for us to come and go from or house as my wife has long term back and respiratory health issues and the condition of the road means we are always able to go out the do the things we would like to without her suffering, I also have received a knee replacement and the vibration caused significant pain when travelling to appointments and treatment. Thank you for the opportunity to make this submission Greg Edwards	Road Request submitted into Road maintenance system for Road inspectors to assess the road against the intervention levels within the Road management Plan. If there are issues outside the specified intervention level listed in the Road management Plan they will be added to a works program. A network wide road condition assessment is to be carried out next financial year of both sealed and unsealed roads. This will develop our capital works program for the next 5 years.
203973	Barry Waylen	Donald St of nyah west desperately needs sealing. I have lived there for the past 10 years and pot holes and water damage is consistently a problem. Most residents along the street agree.	Being considered as part of a Street Scheme Project in conjunction with Mary and Gray St Nyah West.
208866	Peter Corcoran Magill Transport	Curran Road - Refer attachment 6 Curran Road - Refer attachment 7	To be included in the Transport Asset Management Plan as known service performance deficiencies to be designed and considered as funding becomes available.

Sysaid Number	Submission by	Issue	Response
208873	Boundary Bend Progress	Boundary Bend - Kooloonong Rd We would like the sealing of this road to continue for another 8kms, or at a minimum between O'Bree Rd and Anderson Rd. This road has trucks running on it every hour during olive harvest between April and July. It is also used by trucks, farm machinery and general trafffic all year between olives, almonds and broadacre farms.	To be included in the Transport Asset Management Plan as known service performance deficiencies to be designed and considered as funding becomes available.

<u>General Suggestions</u>
There were 2 submissions received relating with general suggestions

Sysaid Number	Submission by	Issue	Response
206345	Alison Black	General. A speed limit of 100 kmh is excessive for the network of very narrow roads within the irrigation settlement. It is requested the limit be reduced.	All rural roads are 100km unless signposted. Speeds must be approved by VicRoads. Individual roads can be assessed when safety concerns are raised but there cannot be a blanket speed reduction.
208575	Gino Salvo	3. V F Siciliano & Sons would like to discuss a suggestion for installing "awareness" signs that may be installed throughout particular roads to remind road users of tractor and bin trailers on the roads during the summer harvest season.	This proposal has been discussed with EDU and Engineering. While EDU think the proposal has merit, Engineering are reluctant as it creates sign pollution and means that drivers do not pay attention to significant location of conflict.

Maintenance Request

There was 3 submission received relating to maintenance requests.

Sysaid Number	Submission by	Issue	Response
206536	Deb Arentz	Natya Bolton Road re sheeted from Wait Road to Nolen Road.	This section of Natya Bolton Road has already been listed in the Capital Works program to be resheeted over the next two years
203969	Dylyn	I'm from logan street and out street is ok but all of murlong street would be good and boldrewood drive cause weeds growing threw the road and the edges are not good on one side of street but murlong street and McCallum intersection on murlong definitely needs re construction done is it primal that do them I see	Added to reflect to assess weeds and edges on Boldrewood drive

		them a lot there very hard workers	
208575	Gino Salvo	1. North South Road, Woorinen, (between Murray Valley Highway & Chillingollah Road) - the crest closer to Chillingollah Road is a safety hazard due to the crest itself & the vegetation growth at the edge of the shoulders have now reached the road edge being a danger to vehicles. 2. Monash Drive, from Chillingollah Road to North South Road, is a safety hazard as shoulders have not been repaired and the edge of the bitumen is crumbling. Also the right angle corner towards North South Road the road has sunk.	Added to Reflect to assess shoulders and vegetation

Non Council Responsibility
There was 6 submission received relating to or infrastructure not under council control.

Sysaid Number	Submission by	Issue		Response
203963	Anonymous	Hi you need to look a turn point at swan hill p its quiet alarming who large truck right up you you on side of road stones and dirt it is a manner to do a rightnankyou.	pet boarding as en you have a r b.m and pass kicking up the very dangerous	Murray Valley Hwy – Managed by Region Roads Vic (VicRoads)
204177	Anonymous	Hayes road Lake Bog channel needs to Increased traffic due to	be upgraded.	Water Authority Managed as it is a channel bridge. However, there is provisions in the planning permit for the development over this bridge that the developer replaces this bridge once a certain number of houses have been reached.
208873	Boundary Bend Progress	Ponding of The section of road Valley Highway Boundary Bend Cara	petween the	Murray Valley Hwy – Managed by Region Roads Vic (VicRoads)

Sysaid Number	Submission by	Issue	Response
		the boat ramp easily passes 50% lane coverage during wet weather.	
206536	Deb Arentz	just tried to get my head around the Proposed Draft Road management plan and really, no words or I should say too many! Very confusing, however, here are my thoughts - - Wattle street Manangatang needs to be totally redone to rid it of the bumps and potholes - From the Mallee Highway through to Sutton Lane.	Wattle St and Mallee Hwy – Managed by Region Roads Vic (VicRoads). A response was also made to submittor to explain the RMP in layman's terms.
203969	Dylyn	I'm from logan street and out street is ok but all of murlong street would be good and boldrewood drive cause weeds growing threw the road and the edges are not good on one side of street but murlong street and McCallum intersection on murlong definitely needs re construction done is it primal that do them I see them a lot there very hard workers	McCallum St intersection at Murlong - Managed by Region Roads Vic (VicRoads). Council have been advocating with RRV to have this intersection upgraded to a round about.
206272	Peter Ryan	Mallee hwy between Kulwin and manangatang We now have road trains on this road and the edging is dangerous Come for a drive and I will bloody show you what I mean there are large pot holes Especially along the only straight where it is safe to pass Presley Rd / mallee Highway about 15 to 18 km west of Manangatang.	Not Council Responsibility

Road Management Plan – Inspections
There was 1 submission received relating to inspection frequencies.

Sysaid Number	Submission by	Issue	Response
206345	Alison Black	Page 15. Table 4. Are footpaths inspected at night? If not, it is requested inspections are carried out at night as footpaths are used at night.	Footpaths are not inspected at night. The purpose of night inspections is to ensure that important road markers and signage such as stop signs or road names are visible and adequately reflective by car light for safety and emergency purposes. They are not to assess ambient light or for hazards that cannot be seen during daylight.

Road Management Plan – wording
There was 1 submission received relating to inspection frequencies.

Sysaid Number	Submission by	Issue	Response
206345	Alison Black	Page 16. Table 5.1.2. It is suggested the inspections include the phrase 'with at least 'three' monthly intervals between inspections'. This prevents back to back inspections which would meet the requirement but not the intent.	The RMP was assessed by an independent lawyer and no issues with this wording was identified (refer attachment 5). Road inspectors and works managers are aware that the intent of the inspection intervals is to be spread across the year and that anything outside of this would be difficult to defend in court leaving them liable if an issue was to occur.

Road Register amendment request

There was 7 submission received relating to the Register of Public Roads

Sysaid Number	Submission by	Issue	Response
206345	Alison Black	Page 29. Map Index. It is suggested that the Map Legend be copied and pasted onto each map for ease of reading. It is standard cartographic practice for each map to carry a legend.	While most large scale map posters have legends, they are generally not provided on each page with the creation of atlases or map books. As there is fair degree of automation that goes into the actual page generation and it is difficult to get maps to an adequate scale if you reduce the size of the map to cater for legends (otherwise the legends may end up covering important information during the creation of the map book). Most street atlases such as the Melways will only have the legend referenced on one or two pages.
206345	Alison Black	Page 44. Bromley Road. The description of Bromley Road appears to be incorrect. Bromley Road stops at Ronald Street not Anniversary Drive. Bromley Road, at the junction with Ronald Street, becomes a service road. See road signs. If this is not the case then there are two roads paralleling each other both of which are named Bromley Road. This begs the question, which authority is responsible for what.	The houses on the section of road between Anniversary Drive and Ronald street are officially addressed with numbers on Bromley Road, this would indicate that Bromley Road ends at Anniversary Drive. Bromley Service Road should be listed as a separate road in the road register as an Access Road under SHRCC management but had been absorbed into Bromley road. Bromley Service Road added to Road Register and all other service roads along highways were checked to ensure it had not occurred elsewhere.
208873	Boundary	Brooklyn Lane	Approved - amendment made.

Sysaid Number	Submission by	Issue	Response
	Bend Progress	The part between Murray Valley Highway and Property Access should be classed as it is on private property and the landowners don't want it open to public.	Brooklyn Ave – MVH to Residential access amended to "Not Responsible" In order to provide residential access for the house at the end of this segment the following changes were also made: Brooklyn Ave – Residential access to O'Bree Rd – upgraded to Access O'Bree Rd – Boundary Bend Rd to Brooklyn Road – Upgraded to Access
208745	Donna and Lionel O'Shannassy	Robinson Rd from Bolton Natya Rd heading Nth to Thompson Rd needs to be a secondary Rd This road is already a very well maintained road and in good condition, I think it may have been listed wrong on your map. We need it to remain in this condition as it is the only access to our property at Bolton from our property on O'Shannassy Rd. It is also used by Keith Dawes, Tim Gleeson and Trevor Walters to access their properties.	Approved - amendment made Robinson Road – Bolton Natya Rd to Thompson Road – upgraded from Unregister to secondary access
208745	Donna and Lionel O'Shannassy	Meridian Rd from Parallel Rd to Bolton Natya Rd needs to be Secondary Rd This Rd is also in good condition as is used by the shire trucks to access water for all the works that are done on roads. It also is required for us and Zankers to access paddocks that we can't get to any other way. I have even seen the school bus go along this road.	Approved - amendment made Meridian Rd – Coonimur Road (Parallel Rd) to Bolton Natya Road upgraded from Unregister to Secondary Access.

Sysaid Number	Submission by	Issue	Response
208745	Donna and Lionel O'Shannassy	Parallel Rd from Meridian Rd to Winnambool Rd needs to be a Collector Rd This Rd is used by the following families to access their properties; Doug Grant, Trevor Walters, Zankers, O'Shannassy, Plants, Jones, Hayden Grant, Hill on a regular basis to shift machinery so it does not have to go down the bitumen roads. It is used to shift seeding equipment, spraying equipment, hay gear, grain carting, harvest equipment, spreading equipment and also for crop and livestock checks. It is the most direct route to the Robinvale Sea Lake Rd for cartage of grain to silo receivals at Manangatang.	Road is not required for residential access and is not constructed for all weather access. Parallel Road runs parallel to Bolton Natya (3.4km North and a Collector Road) and Millers Tank/Moondah Road (1.8-2.8km South and an Access Road). To upgrade this section (14.7km) to all weather access would cost in excess of \$2.2M.
phone call	Donna O'Shannassy	O'Shannassy Road slip lane- blocked off	Approved - amendment made O'Shannassy Road Slip Lane amended to Not Maintained.

External Compliance Report

Elliott Stafford and Associates were engaged to assess the RMP compliance with relevant legislation, assess the plan against any recent court decisions and invited to make any general suggestions for amendments if required. Refer to Attachment 3 for the full report.

The RMP was found to comply with the mandatory requirement required. The following amendments were made to the Draft plan based on recommendations of Elliott Stafford and Associates.

Section	Amendment	
2.1	Include the public who may use the road network	
2.4.1	Responsibility for Rural Arterial Roads between Intersections (Code of Practice S174, 30 May 2017, Operational Responsibility for Roads) - diagram added	
2.4.2	Crown easements added	
5.1.1	Table 4 and Table 5 – Incident inspection added	
5.1.1	Table 5 – Footpaths - falling hazards, collision hazards added	

Financial Implications

As part of the review process of the RMP, Council and the community must be aware of the impacts that "setting the bar too high for intervention levels" would have on Council resources and operational budget.

As part of the review process Council officers consider firstly when an asset has reached a level where the defect would constitute a risk to the public wellbeing. This would be considered the minimum standard for when intervention works should take place on roads and road related infrastructure.

Should Council decide to "raise the bar" and have a higher standard of intervention for defects identified as part of the RMP, this will have an impact on the Council resources available to do this work and to operational budgets to fund these repairs.

The changes in classification of roads within the Road Register reflect the Level of Service being provided in the field. Approximately 894km of road was amended from Access to Secondary classification. These roads are generally dry weather only roads, but present an approximate future saving of \$26M in potential re-sheeting over 20 years if they were to remain as Access roads (All weather).

Social Implications

Well maintained roads and road related infrastructure are critical for the benefit and enjoyment of all community members to enable them to access services that they rely on, on a daily basis. The prioritisation of a network of link and collector roads, directing traffic to favoured routes will increase the level of service and user experience.

Economic Implications

Accessible roads are critical for industry and agriculture business. It is essential that food producers can access their market as efficiently and quickly as possible.

Environmental Implications

Roads and road related assets need to be maintained in accordance to the Environmental policy to ensure minimal impact on the environment and especially the role road reserves play as wildlife corridors containing threatened flora and fauna.

Risk Management Implications

The reclassification of appropriate road segments from Access to Secondary Access reduces Council's risk of non-conformances with Road Management Plan response times. These roads are seasonal traffic only with minimal traffic so reflect a lower risk if a defect above intervention occurs and will allow works crews to focus on the higher use/risk roads. Non-conformances, by not being able to meet the Levels of

Service outlined within the RMP, leaves Council open to potential litigation if there should be an incident.

Council Plan Strategy Addressed

Infrastructure - Infrastructure that is provided and appropriately maintained in accordance with agreed standards.

Options

- 1. That Council adopt the Draft Road Management Plan as presented.
- 2. That Council amend the Draft Road Management Plan.

Recommendation

That Council Adopt the draft Road Management Plan as presented (attachment 1).

Definitions

Unless the context or subject matter otherwise requires, terms used in the RMP have the following meanings:

Arterial Road Freeways, highways and declared main roads which are

managed by the State Government through Regional Roads

Victoria

Bicycle Lane The part of the carriageway designated for use by cyclists

Carriageway The full trafficable area including the roadway and the

shoulders

Code of Practice Road Management Act 2004 Code of Practice: Operational

Responsibility for Public Roads published in the Victoria

Government Gazette S174 on 30 May 2017

Condition Inspection Inspections conducted to assess the life of the road and

pathway network for valuation, lifecycle management and

long term capital works planning.

Council Swan Hill Rural City Council (SHRCC)

Critical Location a location where the road alignment, pavement width and /or

geometry are identified by additional markings, signage or

guideposts to guide the travelling public

Day A day on which SHRCC is open for business. Where a

timeframe is expressed in days it means the current day plus the number of days stated in the timeframe up to

midnight on the last day.

Defect A localised failure in an asset, for example, potholes in a

road surface or displacement in a concrete footpath

Footpath/Pathway A constructed paved, sealed or gravel path intended for use

by pedestrians and/or cycles

Hazard A change to the road or footpath surface that introduces a

hazard to public safety.

Inspection Frequency The frequency of inspections of the road to identify potential

defects or hazards

Intersection An intersection is a junction where two or more roads meet

or cross

Intervention Level The size of the defect at which the road authority has

determined that the defect will be rectified

Levels of Service A defined condition or performance standard associated with

a particular asset and its classification within an asset

hierarchy

Major Culvert A major culvert is a culvert (or more commonly multiple

culverts laid side by side) of large enough size to be treated more like a bridge over a water course than a pipe under a road. In a number of Australian states culverts with cross section area of 6sqm or greater are considered to be major

culverts

Municipal Road Road Sound Road Sound Road Authority

Nature Strip/Roadside The land, generally vegetated, between the carriageway and

a property boundary

Proactive Inspections Inspections performed as part of a scheduled program for

the purpose of identifying defects or hazards above

intervention.

Programmed

Works that are referred to a program of works and will be undertaken subject to availability of resources and subject to any policy directions from Council.

Public Highway

any area of land that is a public highway for the purposes of

the common law;

Public Road

A road declared to be a public road by the relevant road authority

Reactive Inspection

Inspections performed in response to a customer request or notification about the condition of a road/path in order to assess whether the road contains a RMP defect that has reached the relevant intervention level.

Register of Public Roads

List of roads within a municipality that a council is responsible for. Council is required to keep a register under S.19 of the RMA

Repair

the taking of any action to remove or reduce a risk arising from a defect in a roadway, pathway or road-related infrastructure, including but not limited to:

- reinstating a road/path to its former standard following works to install any infrastructure;
- reinstating a road/path to a safe standard following deterioration or damage;
- providing a warning to road users of a defect in a roadway, pathway or road (including road-related infrastructure) - but does not include the upgrading of a roadway, pathway or road-related infrastructure

Examples: Filling in a pothole in a roadway, resurfacing the roadway and erecting a warning sign would be actions to repair the road.

Response Time

The time allowable to respond to a defect. Response time is measured from the time the defect is identified by, or notified to, Council.

Responsible Road Authority The organisation responsible for the management of the road, as determined under s.37 of the RMA

Road

includes a street; right of way; cul de sac; by-pass; bridge or ford; footpath; bicycle path or other land or works forming part of the road. Including:

- a) any public highway;
- b) any ancillary area;
- any land declared to be a or forming part of a public highway or ancillary area.

Road Management Act 2004 (RMA)

The Act provides a statutory framework for the management of the road network in Victoria.

Road Management Plan

The document developed by Council to assist in the management of their road related duties and responsibilities, as defined in the RMA.

Road Reserve

Crown land dedicated to the purpose of being a public

Roads other than a Municipal Road Includes roads in State reserves, unused road licences and private property.

Roadside

The area of land within a road reserve that is neither roadway nor pathway

Swan Hill Rural City Council | Road Management Plan 2021

4

1 Introduction

1.1 Purpose of the Plan

The purpose of the Plan is to establish a management system for Council to inspect road and road related infrastructure and repair identified defects based on policy and operational objectives having regard to available council resources.

The key principles of the Plan are:

- To document a system for the prioritised maintenance of roads and road related infrastructure consistent with the requirements of the RMA.
- · The integration with a Register of Public Roads for which Council is responsible
- To specify levels of service for routine inspections and response times for the repair and maintenance of Council's road and road related infrastructure
- Outline the powers and duties of road authorities
- Provide a public working document for all stakeholders

This Plan has been developed in line with Council's corporate strategies and plans and reflects the outcomes resulting from budget considerations, various asset management plans and levels of service adopted by Council.

Compliance with the RMP is evidence that the Council has discharged its statutory duty to inspect, repair and maintain public roads and any common law duty of care owed to road users

1.2 Scope

The provisions of this Plan apply to municipal roads and road infrastructure (including road-related infrastructure) for which Council is the responsible road authority.

Municipal roads that are not registered as Public Roads are still Council's discretionary responsibility under the Local Government Act 1989, but under the RMA, Council has no obligation to inspect, repair or maintain them and they are not subject to the RMP.

Municipal roads that Council has deemed are 'reasonably required for general public use' or declared to be a public highway under section 204(1) of the Local Government Act 1989 or a municipal road under section 14(1) of the RMA have been registered as Public Roads and are listed in Council's Register of Public Roads.

In determining Public Roads, Council considers a range of relevant matters, including the usage and construction standard of the roads. Public Roads and road infrastructure (including road-related infrastructure) identified within the Register of Public Roads are inspected and maintained by Council under the RMA and in accordance with the RMP Levels of Service. The Levels of Service include standards of inspection frequency and response times and take into account operational objectives and available resources as set out in Section 50 of the RMA.

This RMP also provides for the management of road related infrastructure (including road-related infrastructure) within Public Roads managed by Council, including:

- Footpaths
- Shared pathways
- Bicycle lanes
- Road signs
- · Line marking
- · Traffic control devices
- · Kerb and channel
- · Bridges and major culverts

The RMP does not include the management of the following:

- Other Council non-road infrastructure that may be located within a Public Road, such as underground drainage, street trees, street furniture and buildings.
- Non-Council owned or controlled road infrastructure (including road-related infrastructure) such as bridges and culverts at channel crossings owned by other authorities or utilities.
- Private roads/Private driveways/pathways providing access from private property to a public road
- Nature Strips
- Private infrastructure within the road reserve under 173 agreements

1.3 Exceptional Circumstances

Council will make every effort to meet its commitments under this RMP.

There may be situations or circumstances that affect Council's business activities to the extent that it cannot deliver on the service levels of the RMP. These include, but are not limited to, natural disasters such as fires, floods, pandemic or storm; or a prolonged labour or resource shortage, due to a need to commit or redeploy council staff and/or equipment elsewhere.

In the event of the above circumstances occurring, the Council relies on sections 83 and 84 of the Victorian Wrongs Act 1958 as a complete defence to any claim arising out of noncompliance with this Plan.

Where suspension of the Council's Plan is necessary, the Council's CEO or most senior officer in their absence, will consider and decide on a suspension without necessarily consulting with any stakeholder. If a suspension of the Council's Plan is undertaken, the reasons for this will be referred to as a force majeure event.

If the Council's Plan is suspended, stakeholders should be aware that it will only be reinstated when the reasons for the suspension have abated and the Council has the resources to reasonably resume and meet its Plan.

2 Road Users Right and Responsibilities

2.1 Key Stakeholders

Stake holders of this RMP including customers, other interested parties and responsible authorities and include:

- 1. Residents, general public and businesses using the road network.
- 2. Pedestrians, including those with disabilities and the elderly with restricted mobility.
- Users of a range of miscellaneous smaller, lightweight vehicles such as cyclists, mobility scooters, wheelchairs, prams, etc.
- 4. Vehicle users such as trucks, buses, commercial vehicles, cars and motorcycles.
- 5. Emergency authorities (Police, Fire, Ambulance, SES).
- Utility agencies that use the road reserve for their infrastructure (water, sewerage, gas, electricity, telecommunications).
- 7. Council as the responsible road authority.
- VicRoads/Regional Roads Victoria as Responsible Road Authority for state arterial roads and standards compliance authority.
- State and Federal Government that periodically provide support funding to assist with management of the network.
- Consultants and Contractors (design, construction and maintenance personnel who build or maintain the road and associated infrastructure)

2.2 Obligations of Road Users

All road users have a duty of care under the Act. Section 106 and 138 prescribe obligations as contained in Section 17A of the Road Safety Act 1986 which states that:

- A person who drives a motor vehicle on a highway must drive in a safe manner, having regard to all the relevant factors, including (but not limited to) the:
 - · physical characteristics of the road
 - · prevailing weather conditions
 - level of visibility
 - · condition of the motor vehicle
 - prevailing traffic conditions
 - relevant road laws and advisory signs
 - · physical and mental condition of the driver
- 2. A road user, other than a person driving a motor vehicle, must use a highway in a safe manner having regard to all the relevant factors.
- 3. A road user must have regards to the right of:
 - Other road users and take reasonable care to avoid any conduct that may endanger the safety or welfare of other road users.
 - The community and infrastructure managers in relation to road infrastructure and non-road infrastructure on the road reserve and take reasonable care to avoid any conduct that may damage road infrastructure (including road-related infrastructure) and non- road infrastructure on the road reserve.
 - The community in relation to the road reserve and take reasonable care to avoid conduct that may harm the environment of the road reserve.

2.3 Works within road reserve

Unless an exemption applies under the Act, a person must not conduct any works in, on, under or over a road without written consent of the Responsible Road Authority.

This includes works on footpaths and nature strips including the installation or modifications of driveways outside private property.

Application forms for a Works within the Road Reserve Permit can be obtained from Council's website or Council offices. Failure to seek consent for works within a road reserve is an offense under the RMA. Fees and penalties can be applied.

2.4 Demarcation of Responsibilities

The demarcation of responsibilities under this Plan are as defined in the Road Management Act 2004 Code of Practice: Operational Responsibility for Public Roads published in the Victoria Government Gazette S174 on 30 May 2017, unless specifically identified otherwise

2.4.1 VicRoads/Regional Roads Victoria

Vicroads/Regional Roads Victoria (RRV) are the manager of all regional arterial roads throughout the state. In Swan Hill, the arterial roads managed by RRV are:

- Murray Valley Highway (southern entrance of Campbell Street to Curlewis Street Swan Hill, Curlewis Street Swan Hill, Stradbroke Avenue, Nyah and Bromley Road, Robinvale)
- Mallee Highway (Murray Street Piangil and Larundel Street Manangatang)
- · Sea Lake Swan Hill Road (McCallum Street, Swan Hill)
- · Donald Swan Hill Road
- Robinvale Sea Lake Road (Wattle Street, Manangatang)
- Hattah Robinvale Road.
- Tooleybuc Road

In urban areas, these roads may also be known by their local road name (see above in brackets). On these roads, Council is responsible for the verge and footpath from the back of kerb, or the back edge of the table drain, to the property boundary. Where there are parking lanes on arterial roads that do not allow through traffic, Council is the responsible authority for the area of pavement associated with the parking lane with the demarcation being the interface of the carriage way and the parking area. Where Council is responsible for the parking area, it is also responsible for the kerb and channel.

For rural arterial roads, RRV are the responsible authority for the full width of the road reserve.

2-1 Responsibility for Rural Arterial Roads between Intersections (Code of Practice S174, 30 May 2017, Operational Responsibility for Roads)

2.4.2 Crownland

A number of roads and tracks exist on Crown Land or Crown easements (other than road reserves) where Council is not the Committee of Management, e.g. national and regional parks. DELWP and/or Parks Victoria have management responsibility of these roads. These roads are classified as "Not Responsible" in Council's Register for Public Roads.

2.4.3 Rail Infrastructure

Rail Authorities are responsible for maintaining railway level crossings, which include the area in the immediate vicinity of the railway line (3m of nearest rail). Rail Authorities are also responsible for road and pedestrian bridges over rail and rail over road bridges within the municipality, unless otherwise stated in the Safety Interface Agreements.

Council is responsible for maintaining the approaches to the rail lane and approach signage on the municipal road network.

2.4.4 Utilities

This plan does not apply to infrastructure assets belonging to other infrastructure managers such as telecommunications, water and sewerage, gas and electricity.

2.4.5 Boundary Roads

Council has entered into Boundary Road Agreements with adjoining Councils. These Boundary roads are designated as "Not Responsible" in Council's Register for Public Roads where maintenance agreements have been reached with adjoining Council's.

2.4.6 Private Owners

2.4.6.1 Driveways

Driveways are the responsibility of the owner of the land for which the driveway provides access to and from the road. The landowner is responsible for that part of the driveway as shown in Figure 1, specifically:

- The in-fills between the kerb and channel and the footpath, and the footpath and property line.
- · The layback through the kerb (excluding the channel).
- The immediate surrounds impacted on by the driveway.

The footpath crossover is part of the footpath and is the responsibility of Council, however Council may charge the landowner for the cost of repairs to damage to the footpath caused by vehicles using the driveway.

Figure 2-2 - Driveway Responsibility

Arrangements are similar for culvert crossings over an open table drain where the owner's responsibilities are:

- · Culvert and endwalls.
- Driveway infill between the road edge and the property line excluding any footpath crossover.
- Maintenance of the road seal adjacent to the driveway to be free of loose material sourced from the property or the driveway.

Council retains the right to direct the standard of construction, materials and location of driveways within the road reserve. Landowners must obtain a Working within Road Reserve Permit from Council prior to commencing any works or activities within the road reserve.

2.4.6.2 Footpaths and Overhanging Vegetation

The adjacent landowner has responsibility for keeping pathways clear of vegetation growing from their property. Responsibility for overhanging vegetation may be managed through Council's local laws

2.4.6.3 Footpath trading and outdoor eating facilities

This plan does not apply to footpath trading or outdoor eating and associated furniture located within the road reserve with or without a Footpath Trading Permit issued under Council's local laws.

2.5 Limits in relation to liability for property damages

Section 110 of the RMA details the liability and extent of claims for property damages or incident claims.

In accordance with Section 115 of the RMA, a person who intends to take court proceedings in relation to a claim for damages arising out of a condition of a public road or infrastructure, must first lodge a written notice with Council. This notice must be lodged with Council within 30 days of the incident occurring.

3 The Register of Public Roads and Classification

3.1 Register of Public Roads

The Road Management Act 2004 places a mandatory requirement that a road authority maintains a register of public roads. The purpose or the register is to define the public roads for which Council is the responsible authority.

Council's Register of Public Roads is available as a public document via Council's website or over the counter at any Council Office. The Register includes a listing of the public roads within the Council, a description to assist with identification, the Classification of the roads (see below) and any notes if known regarding the road management or gazette information.

3.2 Road Classification

For purposes of this RMP, Public Roads have been classified as follows:

Classification	Description	Accessibility	Surface
Link	Link roads provide a road that supplement the main arterial road network. These roads provide through-traffic movement between significant population centres and major traffic generators such as residential, industrial, and sporting nodes	All Weather Access	Generally Sealed
Collector	Collector Roads act as a catchment between Access and Secondary Roads directing traffic towards Link and Arterial roads.	All Weather Access	Gravel or Seal
Access	Access roads provide all weather access to residences.	Generally All Weather Access ¹	Gravel or Sealed
Secondary	Secondary access roads are low use/low volume roads. They are roads that provide seasonal access to properties or provide a link to access roads.	Dry Weather Only access	Gravel or Earth
Ancillary	A roadway or track generally contained with a Caravan Park, public park or public reserve. These are generally not on a public road reserve but on Council managed land	All Weather or Dry Weather Only access	Gravel or Sealed
Sealed Laneway	A sealed laneway providing rear access to businesses	All Weather Access	Sealed
Unsealed Laneway	An unsealed laneway providing secondary access to urban properties	Dry Weather Only access	Gravel or Earth
Not Maintained	Primarily unformed roads, laneways or tracks and very rarely used. These roads are not considered "reasonably required for general public use and may be eligible for unused road licences to adjoining landowners.	Dry Weather only	Earth

Table 2 - Road Classifications

¹ Council is aware that some Access Roads are not 'all weather access' and will be implementing an improvement program to upgrade those roads to the required standard over time

The Register of Public Roads also contains roads of classification "Not Responsible". These roads are not maintained or inspected by SHRCC and have been included in the Register to assist for clarity of responsibility.

3.3 Footpath Classification

For purposes of this RMP, footpaths have been classified as follows:

Classification	Description
Class 1	Footpaths in the Central Business District (CBD) of Swan Hill and Robinvale
Class 2	Footpaths in CBD of other towns and satellite business areas of Swan Hill, around schools hospitals and elderly accommodation.
Class 3	Residential areas and Industrial areas and all shared pathways

Table 3 - Footpath Classifications

3.4 Levels of Service

To assist Council with meeting its Road Management Act duties and to provide clarity to road users and ratepayers, the Council has adopted Levels of Service regarding inspections and expected response times for addressing defects.

Levels of Service relating to pro-active and reactive inspections can be found in Appendix A – Inspections.

The maintenance intervention levels and response times are detailed in Appendix B - Defect Intervention Levels and Response Times. Where the response time has been set as "Programmed", the works are referred to a program of works and will be undertaken subject to availability of resources and subject to any policy directions from Council.

If the nature of the work required, level of resources or workload, is not feasible to rectify the defect within the time shown in Table 8 - Defect Intervention Levels and Response Times **appropriate warning** of the defect or **temporary treatment** of a defect or hazard to reduce risks associated with the defect until permanent repairs can be undertaken is to be provided until a suitable repair or treatment can be completed.

Appropriate warning may include, but is not limited to, the following:

- Provision of warning signs
- Marking defects for higher visibility
- Traffic control action
- · Divert traffic around defect
- · Installation of temporary speed limits
- Road closures

The municipality is geographically one of the largest in Victoria, with a travelling time of two hours from north to south. Considering long travelling times for maintenance crews, it is cost effective and operationally efficient for Council to repair nearby defects that have not yet reached specified intervention levels while attending to defects that have been identified within the RMP. This philosophy has been taken into account when setting intervention levels.

With regard to footpaths, all defects that have been identified will be responded to within the timeframe as set out by the RMP.

Defects may be identified where it can be determined that they may deteriorate to an extent that reach intervention prior to the next programmed inspection. In these cases, a review will be carried out of this defect and, if Councils schedule and resources enable action, this will be carried out and recorded as proactive maintenance works.

For the avoidance of doubt, the practice of repairing defects inside intervention levels while maintenance crews are nearby forms part of this RMP and is otherwise a practice Council considers consistent with the inspection, repair and maintenance requirements and standards specified by or in this RMP.

4 Review and Monitoring of Road Management Plan

4.1 Reporting

Reports (or dashboards) will be developed that provide statistics on how the RMP is tracking. These reports will include information such as:

- Number of new defects identified within a time period
- Types of Defects identified
- Number of Customer requests received within a time period
- Compliance with response times by defect type
- No of overdue defects

4.2 Audit

A program of auditing, using both internal and external auditors, is being developed for the purposes of ensuring that all the management systems in place are delivering the levels of service adopted by council for its road network assets.

4.3 Review of the Road Management Plan

This Road Management Plan shall be reviewed in accordance with section 8 and 9 of the *Road Management (General) Regulations 2016.* The review will be conducted so as to conclude within 6 months, following a Council election (or greater period if applicable under section 90 of the *Local Government Act 2020)* to enable coordination with the preparation of the Council Plan.

A report summarising the finding and conclusion of the review will be available at the Council office and on the Council's website in accordance with section 9(2) of the Regulations.

This Road management Plan may be amended at any period between general elections of Council in accordance with sections 10 and 11 of the Regulations.

4.4 Consultation Process

In any review associated with the Road Management Plan, consultation will be undertaken as follows:

- Internally by staff associated with the RMP implementation
- Externally by placing this document on exhibition and calling for submissions from the general public; and
- Externally by Council's insurer and legal advisors.

Inspection and response standards have been based on an approach that aims to balance customer expectations with sustainable resource management. Information gained form external and internal sources, including historical knowledge of demand, risk and expectation has guided the development of these standards.

5 Appendices

5.1 Appendix A - Inspections

5.1.1 Inspection Types

There are three types of inspections undertaken on Council's roads and footpaths. These are Reactive, Programmed and Asset Condition inspections.

Inspection type	
Programmed	Programmed inspections assess the road and footpath network to identify defects that have reached the intervention level, as defined in Council's RMP.
Reactive	Reactive inspections are undertaken following notification to Council of defects and safety issues by the community or stakeholders. The defects are inspected in line with criteria set out within the RMP.
Condition	Asset condition inspections are conducted to assess the condition and remaining useful life assets in order to prioritise renewal works and report financial depreciation figures. Condition inspections are conducted as specified in Council's Asset
	Capitalisation and Valuation Policy.
Incident	An inspections conducted after Council have been notified of an incident or near miss on Council Road .Carried out to comply with the requirements of the Act (refer Division 5 of Part 6 – Claims Procedure, Section 116).

Table 4 - Inspection Types

The type of defects to be observed and recorded by the inspector will vary depending on the type of inspection and the nature of the asset being inspected, as detailed below:

Programmed Inspection Type	Sealed/ Unsealed	Items to be included in inspections		
Daytime	Sealed	Potholes, edge breaks, major cracks, shoulder drop-off, stripping of seals, excessive loose stones, signage, linemarking, guideposts, RRPM's, table drains, culverts, bridges, kerb and channel and vegetation clearance		
	Unsealed	Potholes, loose material, pavement failures, signage, guideposts, table drains culverts, bridges and vegetation clearance		
Night	Sealed	Visibility of signage, line-marking, guideposts, and raised reflective pavement markers (RRPM's)		
	Unsealed	Visibility of signage and guideposts		
Footpaths	N/A	Trips defects, falling hazards, collision hazards, pit lids, mounds or depressions and vegetation clearance		
Reactive	N/A	Defects as listed above but triggered via a notification of a defect		
Incident	Sealed/ Unsealed	A statement of the condition of the relevant part of the road or infrastructure and where appropriate photographs showing the condition of the site of the incident;		

Table 5 - Observations

Swan Hill Rural City Council | Road Management Plan 2021

5.1.2 Inspection Frequencies

<u>Roads</u>					
Classification	Daytime Proactive	Night time Proactive	Reactive		
Link	4 per calendar year	1 per calendar year			
Collector	2 per calendar year	1 per calendar year	10 Working Days		
Access	1 per calendar year	1 per 2 calendar years			
Secondary/ Sealed Laneway	1 per 2 calendar years	1 per 2 calendar years - Level crossings only			
Ancillary/ Unsealed Laneway	N/A	N/A			

Table 6 - Inspection frequency - Roads

<u>Footpaths</u>					
Classification	Frequency of inspections	Window			
Class 1	2 per calendar year	1 st inspection: 1 Jan – 30 June 2 nd inspection: 1 July – 31 Dec			
Class 2	1 per calendar year	1 Jan – 30 June			
Class 3	1 per calendar year	1 July – 31 Dec			

Table 7 - Inspection Frequency and Inspection Window - Footpaths

5.2 Appendix B - Defect Intervention Levels and Response Times

Intervention level

MAXIMUM - Response Time by Usage

Description of Defect	Link	Collector	Access	Secondary
Sealed roads				
Potholes greater than 300mm diameter and 50mm deep	2 Weeks	1 Month	2 Months	4 Months
Deformations in the traffic lane greater than 100mm in depth and under a 3m straight edge	1 Month	2 Months	4 Months	6 Months
Edge break exceeds 150mm laterally over at least a 1m length from the nominal edge of seal	2 Weeks	1 Month	3 Months	6 Months
Drop off from edge of seal to unsealed shoulder greater than 100mm over >1m length	1 Month	2 Months	4 Months	6 Months
Line markings missing or illegible at a critical location rendering them substantially ineffective	3 Months	6 Months	12 Months	12 Months
Accumulation of aggregate or sand in a traffic lane exceeding 50mm and > 5m long	2 Weeks	2 Months	4 Months	12 Months
<u>Unse</u>	aled roads			
Corrugations greater than 25mm in depth for a length >500m or total road length	N/A	3 Months	6 Months	12 Months
Wheel ruts, shoves or potholes >500mm diameter and >150 mm depth measured with 3m straight edge, across the road	N/A	3 Months	6 Months	12 Months
Traffic Defects				
Ponding of water >300mm in depth and/or across 50 per cent of the traffic lane width	2 Days	3 Days	5 Days	1 week
Fallen tree or other obstruction blocking a traffic lane	2 Days	3 Days	1 week	1 month
Tree's shrubs or grasses that have grown to restrict design sight distance to intersections or restrict viewing of safety signs	1 month	4 Months	Programmed	Programmed
<u>Structures</u>				
Drainage pit lid or surround missing or at a height differential >50mm in traffic lanes	2 Days	3 Days	1 week	1 month

Intervention level

MAXIMUM - Response Time by Usage

Description of Defect			Collector	r Access	Secondary
Damage to a bridge or major culverts i.e. o Missing or damaged planks o Structural damage (voids or holes) o Missing or damaged railings	2 Days		3 Days	1 week	1 month
Road	Furnitur	<u>e</u>			
Existing Regulatory signs missing, illegible or damaged, making them substantially ineffective			1 Month	2 Months	3 Months
Existing Warning and hazard signs missing, illegible or damaged, making them substantially ineffective			3 Months	4 Months	12 Months
Any damaged or defective guardrail at a critical location* making them substantially ineffective			4 Months	6 Months	12 Months
Existing guideposts missing or damaged at a critical location* making them substantially ineffective	2 Month	S	3 Months	6 Months	12 Months
<u>Kerb</u>					
Where a kerb adjacent to a traffic lane has a horizontal deviation from alignment >250mm		s	6 Months	12 Months	N/A
<u>Footpaths</u>					
Description of Defect		C	Class 1	Class 2	Class 3
Footpath lip or step >30mm in height		1 N	Month	3 Months	6 Months
Footpath mounds or depressions >100mm under a 1.2m straightedge.		1 N	Month	4 Months	12 Months
Longitudinal cracks greater than 20mm in width		1 Month		3 Months	6 Months

Table 8 - Defect Intervention Levels and Response Times

Swan Hill Rural City Council | Road Management Plan 2021

^{*} A critical location is a location where the road alignment, pavement width and/or geometry are identified by additional markings, signage or guideposts to guide the travelling public.

 $^{^{\}star\star}$ Programmed works will be undertaken subject to availability of resources and subject to any policy directions from Council.

24 May 2021

Ms L O'Dwyer Swan Hill Rural City Council 45 Splatt Street SWAN HILL VIC 3585

By Email: leodw1@swanhill.vic.gov.au

Dear Ms O'Dwyer,

RE: REPORT ON COMPLIANCE OF ROAD MANAGEMENT PLAN 2021

THE BRIEF

The primary purpose of this report is a compliance check with the relevant legislation by the Road Management Plan ("RMP").

There is also an element of whether the RMP to the extent that it is able, addresses relevant court decisions.

Finally general suggestions for amendments, necessary or desirable, are invited.

PREAMBLE

Nature of RMP's

RMP's are voluntary: s49. However, if a Council adopts one it must comply with applicable statutory requirements. These are principally contained in the *Road Management Act 2004* and the regulations made under it.

Statutory Scheme

The statutory scheme is contained in Part 4, Division 5 of the *Road Management Act* being ss 49-55. Necessarily it involves referencing other sections of the Act, the *Road Management (General) Regulations 2016* particularly Part 3. By virtue of s52(1)(d) codes of practice become not only relevant but mandatory in certain circumstances.

316A Queens Parade, Clifton Hill VIC 3068 t: (03) 9486 7555 | DX 15406 Clifton Hill | e: lawyers@elliottstafford.com.au

Bernadette M Elliott Principal bernadette.elliott@elliottstafford.com.au

Basil L Stafford In-House Counsel basil.stafford@elliottstafford.com.au Alison J May Senior Associate alison.may@elliottstafford.com.au The purposes of the RMP are clearly set out in s50:

50 Purposes of a road management plan

The purposes of a road management plan are having regard to the principal object of road management and the works and infrastructure management principles—

- to establish a management system for the road management functions of a road authority which is based on policy and operational objectives and available resources; and
- (b) to set the relevant standard in relation to the discharge of duties in the performance of those road management functions

Section 52 sets out the contents of a RMP of which only s52(1)(d) are mandatory which requires that if any relevant Code of Practice refers to a matter that should be included then it must be included. Relevant are *Code of Practice for Road Management Plans* S201 of 16 September 2004 ("the Code") and to a lesser extent, S174, 30 May 2017, *Operational Responsibility for Roads*.

The statutory scheme allows the Road Authority by a RMP to determine a policy with respect to its functions (s39) that provides a defence that acting in accordance with it is not a wrongful exercise failure to exercise that function, unless it is so unreasonable it couldn't be made. The immunity provide by "Part 6 Civil Liability" is a principal reason for having the RMP.

Mandatory Provisions

The RMP must include determinations of standards for the purposes of s41. See Code 7.1

Infrastructure to be covered by the RMP and all public roads to be covered by the RMP needs to be listed. Here Code of Practice S174, 30 May 2017, *Operational Responsibility for Roads* must be followed. It is permissible to refer to the register kept for the purpose; the roads and infrastructure need not be listed in the RMP itself. This is relevant to the immunity to the Road Authority under s104. Is noted SHRCC has such a register, at least to the extent of its public roads.

An inspection standard if adopted must contain the nature and frequency of inspections to be carried out on road infrastructure. Failure to so specify (and of course inspect as set out) will affect the s104 immunity.

The inspection standards under the RMP must consider:

- the type of road infrastructure, and the volume and nature of public road usage;
- the scope of inspection;
- community expectations;
- any relevant risk factors;
- the resources available, and the competing demands for those resources;
- Maintenance and repair standards must include for both roads and pathways;
- the type or nature or seriousness of defects that require repair or a warning ("the intervention level"); and
- the time within which such defects should be repaired, or a warning erected after a known defect reaches the intervention level.

And in in doing so must consider:

• the type of road infrastructure, and the volume and nature of public road usage;

- community expectations;
- any relevant risk factors;
- the resources available, and the competing demands for these resources;
- the use of temporary measures and warning systems to warn road users of hazards until the utility of the public road can be restored;
- potential impacts on utility infrastructure and utility providers;
- environmental and cultural factors

And overarching them are the mandatory considerations of s41(4) being:

- (a) the principal object of road management; and
- (b) the works and infrastructure management principles; and
- (c) any relevant direction made under section 22; and
- (d) any relevant Code of Practice; and
- (e) any relevant policy or policy decision under section 39.

A management system is not compulsory but highly desirable and is not compulsory under the Code but forms a large part of it. The Code specifically mentions s52 and is a clear reference to s52(1)(b). The Victorian Auditor General's Office has made reference to its desirability in a number of reports to the parliament. It may be observed that s41(4)(b) is a difficult consideration to apply in the absence of a management system even allowing for the distinction between a principle and a system.

CONCLUSIONS

This is divided into 3 parts:

- Part 1 is concerned with statutory compliance;
- · Part 2 is concerned with necessary or desirable amendments;
- Part 3 is concerned with addressing court decisions.

Part 1

The RMP complies with the mandatory requirements.

3.1 deals with the register of public roads.

The Register of Public Roads should include all the roads that SHRCC is responsible for under s37 having regard to Code of Practice S174, 30 May 2017, Operational Responsibility for Roads.

Attention is drawn to clause 7.2 of the *Code of Practice for Road Management Plans* S201 of 16 September 2004 which says in part:

To this end, a road management plan may:

- (a) include a list in its road management plan; or
- (b) refer to an asset register kept by the road authority:-

that lists:

(c) roads, roadways, pathways, road infrastructure or road-related infrastructure; or

- (d) classes of roads, roadways, pathways, road infrastructure or road-related infrastructure:-
- (a) for which the road authority is the responsible road authority.

In establishing the list of road infrastructure to be covered by a road management plan, a road authority should consider:

- (a) all of the road infrastructure; and
- (b) the public roads:-

for which the authority is the responsible road authority under section 37 of the Act and any Code of Practice referred to in section 37(3)

Pathways, road infrastructure or road-related infrastructure are not listed under either 7.2(c) or 7.2(d). I have taken the view that this infrastructure is listed by necessary implication in the register. This is certainly true of line markings, barriers, road furniture, guideposts, bridges, signs and the like. However, major infrastructure and any infrastructure not owned or managed by SHRCC should be listed in the future.

3.3, 3.4, and Appendices A and B adequately deal with the mandatory provisions of inspection maintenance and repair standards.

Part 2

Necessary or desirable amendments. No amendments are necessary, amendments below are regarded as desirable.

- 1 Include a section on council's responsibilities for the local road network.
- 1.3 Include refence to Emergency Management Act 1986 and council's Municipal Emergency Management Plan.
- 2.1 Include the public who may use the road network.
- 2.4.1 It may be useful to include a diagram (as has been done in 2.4.6.1) at the end of the paragraph based on figure 7 of Code of Practice S174, 30 May 2017, Operational Responsibility for Roads modified as required.
- 2.4.2 Include Crown easements.
- **2.4.4** Include easements and note the comments on including them on the register.
- 2.4.4.6 Is there a need to include lighting, storm water drains private roads? I would suggest so.
- 2.4.7 Is there a need for a reference to special charge scheme?
- **2.4.8** A list of excluded assets is suggested? E.g., street furniture, entry roads to parks, non-standard light poles, underground drainage, car parks not on road reserve.
- 2.4.8 Is there a need to consider non-standard infrastructure? E.g., steel plates or pipes or small bridges at crossovers, public steps servicing different road levels etc.
- 2.4.9 Does SHRCC have a bicycle network that needs special reference?
- 2.4.10 Are there shared municipal boundary roads? These need to be listed and also indicate who is responsible for them.

- 3.4 consider inserting a definition of "appropriate warning" to protect against warning fatigue i.e., the public disregarding warnings that become meaningless so that they also ignore warnings that are real. I once bought a baby's rattle that had a warning "not suitable for children under 2"!! So long as the need for a warning is considered and the reason for not giving is recorded it should be covered by the RMP.
- 4.2 it is noted the auditing program is under development. It is an important part of the RMP and lack of it may prejudice the defence of civil claims. The VAGO is critical of lack of audit.
- **5.1.1** to Table 4 inspection types add "Incident" and add appropriate frequencies. Obviously, it should be shorter but not so short that it is a strain on resources.
- 5.1.1 to Table 5 observations add as appropriate guard rails, street furniture, safety fences, major culverts, hazards, and bicycle network. In a special category are bridges which should be inspected both with and without a consultant on a rotation. Similarly council trees both with and without an arborist on a rotation. Include tree roots as a tripping hazard and property damage. This is important to access the statutory defences.
- 5.2 to Table 8 description of defect; is piping to wooden bridges an issue? Also, for footpaths add general tripping, falling, or collision hazards. Collision hazards are particularly relevant to the blind or visually impaired. Also breach of disabled code of practice. Faster response to customer requests should again be covered.

As a general observation the RMP does not separately deal with road maintenance management including risk assessment generally and road management systems such as geographic information systems and pavement management systems. Again, this was subject to adverse comment by VAGO. However, this is a matter for Council and its resources.

Part 3

The High Court in *Brodie v Singleton Shire Council (2001) 206 CLR 512* abolished the 'highway rule' that granted immunity to road authorities for nonfeasance. The effect of Brodie's case was abolished for about 3 years while parliament considered its consequences before bringing in the *Road Management Act 2004*. The Act deals with road safety and road standards and to codify the Brodie principles.

The Road Management Act 2004 imposes a duty to inspect, maintain, and repair public roads. In addition to common law defences the statute provides defences based on a road management plan or policy and **compliance** with the specified standards.

Defences are created by:

- s102 the no actual knowledge defence but does not relate to a breach of duty to inspect;
- s103 the policy defence; and
- s105 the reasonable care defence. The essence is that the policy or RMP addressed the
 matter which caused the incident and council complied with the relevant part of the
 policy. Further in deciding if a duty of care exists, s83 of the Wrongs Act 1958 requires
 the court to consider financial and other resources of the authority, the overall functions
 of the authority, and the authority's general procedures and standards.

Cases like *Kennedy v Campaspe [2015] VSCA 215*, which is the leading case, depend on their own facts. However, some principles can be extracted. This, of course, is more the job of a textbook, but it can be said from *Kennedy* that the standards are most important and need to apply to the incident. Once the standard covering the incident has been proved it is critically important that the standard be strictly complied with; even 2 days late for an inspection will be a

breach. It is then whether the breach caused the incident. Ironically if the standard allowed more time there would be no breach – hardly an incentive to set ambitious targets. Targets therefore should be realistic and achievable. It is better to allow a target that can be met.

Therefore, the RMP needs to cover the bases, and the RMP needs to be complied with. Further there has to be good records of compliance, and a checking system to make sure compliance has taken place and has been documented. If this is done, statutory immunity is given.

The RMP, within reason, gives the council the ability to write its own rules. It follows that it must comply with its own rules.

CONCLUDING OPINION

The Road Management plan 2021 of Swan Hill Rural City Council complies with the legislative framework.

This opinion is not altered by the comments and suggestions made in addition to that opinion. Such comments and suggestions are optional in council's discretion. Further, there is scope for recasting and improving further on the document but not before going before Council in June.

Yours faithfully

Basil L Stafford | In-house Counsel Elliott Stafford & Associates

Attachment 4 Media Release

Media Release

9 June 2021 - For immediate release

Proposed Draft Road Management Plan - open for submissions

Swan Hill Rural City Council are reviewing their Road Management Plan and they want to hear from you!

The Draft Road Management Plan 2021 applies to all roads within Swan Hill Rural City Council boundaries for which the Council is the Responsible Road Authority, as identified in the Council's Register of Public Roads.

Swan Hill Rural City Council's Director Infrastructure, Svetla Petkova said the purpose of the review is to update the content of the current plan in accordance with legislation, as well as make it clearer to all stakeholders who is responsible for what and what level of service users can expect on our roads.

"The Road Management Plan outlines how often Council will inspect council managed roads, when a defect is going to be rectified and how long our works crews can take to fix different issues."

"These levels of service are tied to the classification of a road within the Register of Public Roads. As part of this review, our officers have conducted a full review of all roads to provide clarity, consistency and fairness across the whole network" Ms Petkova said.

The review of the Register aims to ensure all-weather access to all residences within the Council area, while also creating a network of priority roads and linkages with a higher level of service. The proposed changes have resulted in:

- 15km of new roads identified
- 541km of road that gain an upgraded level of service including 89km of road reclassified to Collectors, 19km upgraded to Link and 380km of roads previously not maintained
- 1281km of road reclassified to Secondary Access including 890km previously classed as Access Roads.

The Draft Road Management Plan 2021 and the Register of Public Roads will be available at Council Offices from Friday, 23 April 2021.

Council is inviting public submissions on the proposed review and they must be received by Monday, 24 May 2021.

Submissions can be made online at www.swanhill.vic.gov.au/yoursay or via post addressed to the Enterprise Assets Manager, PO Box 488, Swan Hill, Victoria 3585.

For more information, contact Council on 5036 2333.

To Whom It May concern,

This is a submission to council in regards to an upgrade for Curran Road in Bannerton.

We at Corcoran Bros P/L / Platinum Potatoes P/L pride ourselves in quality service and produce. With this, we supply fresh produce to PepsiCo (Smiths Chips, Red Rock Deli) for 40 weeks of the year, and fresh pre-pack potatoes to supermarkets around the country for 52 weeks of the year. In excess of 900 b-double/road train movements per annum of produce, and roughly 120 truck movements with seed, fertiliser, manure and gravel. The sheer volume of produce that would travel this road would be in excess of 45,000 tonnes of produce, grains, fertiliser etc etc.

Not to mention employees, school drop off, shopping and parts that are also 10-20 trips PER DAY of regular vehicles.

My neighbouring farm is also on a similar scale with their potatoes and cereals, then they have the largest garlic producer in Australia growing its garlic and transporting their produce down this road also from that property.

Curran road plays an integral part in the daily running of our business and unfortunately, over the last 5 years, as all surrounding farms have expanded, the road had deteriorated to a level at which it is becoming a hazard and negatively impacting our business.

We are currently at another stage of expansion which would see us employ another 10 local people within the next two years, after recently employing 3 locals this season.

Unfortunately, the state Curran road is in, we are limited in our capabilities, I have had several transport company's refuse to travel this road, one driver stated that it is the worst that he has ever travelled on, and he has been driving for 40+ years. Pepsico, a international corporate company is struggling to find transport companies to collect our produce. We have a delivery of new equipment expected for July and issues have already been raised with logistics of getting it onto farm for fear of it damaging structural integrity. This is now becoming a common conversation with transport companies. Furthermore, parts and personal delivery companies will no longer service our house and farm, my wife travels this road everyday, sometimes 6 times per day with our four young children. My current employees are requesting a service payment for their vehicles, this has resulted in the purchase of two extra farm vehicles as some are refusing to drive their own cars on Curran road.

There has been a number of non-documented accidents on this road, including two roll overs, collisions in dust between vehicles and trucks, loss of control due to corrugations, the list goes on.

We purchased this farm 17 years ago and in all the time we have been here we have never written a letter to council regarding the road, I would not be writing one if I was not desperate for a resolution. It has come to the stage where it is seriously affecting our daily lives. I am pleading with council to consider upgrading Curran road in its upcoming road management plan. I am extremely worried about where my business will be in the next 3 years if the road is left as it is. Grading is no longer a viable option, the layer of grading erodes within 6 weeks with the amount of continuous heavy traffic and the road is left as seen in the photo for the remaining 12-24 months until it is graded again and the circle continues.

We appreciate our council and thank you for taking the time to read my letter and to consider my application. We want to be involved in our local community, but this can be difficult without access. We have Clontarf visiting this week from the Robinvale college to see our operations as we currently employ two of their ex students and the first thought that crossed my mind is how unsafe it will be for them to drive their bus down Curran road. This is a daily thought for myself, my family, my business and my staff. Upgrading our road would turn my business around and ensure that I still have the capabilities to keep my staff in jobs and food on the countries table.

Kind Regards, Peter Corcoran

23rd May 2021

To whom it may concern

Our company transports approx. 10,000 tonne per Annum of fresh produce from two separate growers on Curran Rd. Due to the significant amount of produce that comes out of Curran Road it regularly deteriorates significantly to a level that we consider as potentially damaging to our equipment. Although the road does get repaired, the level of use from heavy vehicles is significant and it quickly returns to an unacceptable level.

Should you require any further clarification please don't hesitate to contact myself.

Alan Magill

Manager

15 June 2021

B.21.45 SWAN HILL INCORPORATED ANNUAL MARKETING PLAN AND BUDGET FOR 2021/22

Responsible Officer: Director Development and Planning

File Number: S12-24-05

Attachments: 1 Marketing Plan, Incorporating Budget 2021-

2022 Swan Hill Inc

Declarations of Interest:

Heather Green - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This report recommends that Council adopt the Swan Hill Incorporated Annual Marketing Plan and Budget, Communication Plan for the 2021/22 year.

Discussion

In order for Swan Hill Inc. to receive the funds collected through the Special Rate for its programs, Council must first approve Swan Hill Inc.'s Annual Marketing Plan and Budget.

Marketing Plan and Budget

Swan Hill Inc will continue to implement a mix of traditional and digital marketing campaigns to increase visitation to the Swan Hill Region. In addition, the plan includes the continuation of popular events such as Market Day and the Swan Hill Region Food and Wine Festival. There will also be a continued focus on engaging and supporting Swan Hill businesses through a strong advocacy and business support program.

The 2021/22 Swan Hill Incorporated annual budget includes the following:

Income

Special Rate income: \$366,370

Carry forward: \$180,000 Market Day \$1500

Membership SHI (Voluntary) \$4,600

Swan Hill Region Official Visitor Guide \$50,000

Swan Hill Food & Wine Festival \$50,000

Bank interest \$400.00 **Total income: \$652,870**

The significant carry forward of \$180,000 from the 19/20 budget to 21/22 will be committed as per below. In 2020 there were significant COVID-19 lockdowns and limitations on movement within the state of Victoria. If budget was committed and spent during this period, it would have resulted in a low return on investment.

15 June 2021

Swan Hill Incorporated Marketing Committee: \$100,000

Swan Hill Incorporated Board opportunistic promotions: \$20,000

Swan Hill Incorporated Traders Committee: \$10,000

Swan Hill Rural City Council Loan: \$50,000

TOTAL: \$180,000

Expenses

Administration expense: \$83,727 Business Support expense: \$10,600

Marketing expense: \$415,000 Promotion expense: \$35,000 Traders expense: \$108,000 **Total expenses: \$652,327**

Net Surplus: \$543.00

Consultation

Swan Hill Incorporated has consulted with its members and in the development of all documents.

Financial Implications

Swan Hill Inc. is funded through the Special Rate and voluntary contributions.

Social Implications

It is anticipated that the successful implementation of the Marketing plan and Annual Budget will result in increased visitation to the region and improved business responses.

Economic Implications

The activities to be carried out under the Marketing Plan and Annual Budget will assist the local economy by increasing visitor numbers and in turn support additional employment, residents and business development.

Environmental Implications

Not applicable.

Risk Management Implications

Failure of Council to endorse these documents and the budget will result in Swan Hill Inc. being limited in its operations.

Council Plan Strategy Addressed

Economic growth - Encourage and attract new business to our region.

Options

- 1. That Council approves the Annual Marketing Plan and Budget 2021/22
- 2. That Council does not approve the Annual Marketing plan and Budget 2021/22.

Recommendation

That Council approves the Swan Hill Incorporated Annual Marketing Plan and Budget (2021/22).

Swan Hill Incorporated - Annual Budget 2019 - 2020
Appendix A - Destination Marketing Strategy including customer profiles best suited to Swan Hill as defined by Murray Regional Tourism research

INTRODUCTION

Swan Hill Incorporated has developed this annual marketing plan and budget to deliver a comprehensive set of priorities and actions for the organisation over the next 12 months. The function of the marketing plan is to deliver outcomes from the strategies documented in the strategic plan. It includes a tactical plan outlining the key initiatives, activities and timings.

KEY PARTNERS

Swan Hill Rural City Council

Swan Hill Incorporated will work directly and collaboratively with the Swan Hill Rural City Council to ensure the success of the plan.

Business Community

Swan Hill Incorporated will represent the best interests of its members by providing leadership to, and engaging with, the business community through strong communication.

Regional, State and Federal Tourism, Development and Government Organisations

Swan Hill Incorporated will work collaboratively with State and Federal Government and relevant industry organisations including the Murray Regional Tourism Board, Visit Victoria, Regional Development Victoria, Destination New South Wales and Regional Development Australia. Each of these agencies will provide Swan Hill Incorporated with a range of opportunities not the least of which will be for additional funding for projects or events.

The Community

Swan Hill Incorporated will engage with the local community to promote the benefits of supporting local businesses and championing their own region.

ECONOMIC BENEFITS

The promotion of our Region is focused on bringing visitors to Swan Hill and the surrounding region. Results from Tourism Research Australia for the year 31 December 2019 showed that the Swan Hill Region experienced 273,000* domestic and international overnight visitors in that time.

Fact sheets produced by Visit Victoria Research Unit in December 2020 show the average expenditure in the Murray region to be \$131 per night.

The visitor economy results in many businesses, not directly related to tourism, benefiting significantly from the proceeds of visitors to the region.

^{*} Domestic and international visitation and average expenditure are retrieved from Murray Regional Tourism Board December 2019 Quarterly reports.

ABOUT SWAN HILL INCORPORATED

Swan Hill Incorporated has operated under the Special Rate for the past 18 years and been very successful in the promotion of Swan Hill and the region.

Our Purpose:

To market and promote the Swan Hill Region.

Our Vision:

We will be the relevant organisation supporting business in the marketing and promotion of our region.

Our Strategies:

Visitation to the Region

Increase visitation by specifically marketing the Swan Hill region as a place to visit and enjoy.

Shopping in the Region

Specifically market the Swan Hill region as a place to shop and encourage the provision of quality service. Promote and educate the importance of shopping locally.

Advocacy

Engage with and advocate on behalf of members.

Business Support

Provide support and direction to members.

OUR STRUCTURE

Swan Hill Inc. has a Board of Directors and three sub-committees to cover:

- Marketing
- Traders
- Business Support and Advocacy

In total we currently have 22 volunteers that make up our main board and the sub committees. Each of these people give their time voluntarily and a number of them have done so since Swan Hill Inc.'s inception.

HOW HAVE WE PROMOTED THE REGION SINCE 2014 - 2021

The Swan Hill Inc. Marketing Committee have annually developed and executed a marketing plan to promote the Swan Hill region through the following key activities:

Mainstream Marketing

Regional TVC advertising together with Radio and Print advertising in Metro & Regional outlets. Our current campaign is local influencers, Harry Coffey, Josh Jenkins, Tessa Lavey, Taj Kelly and Rod McKenzie, promoting the Swan Hill region.

Digital Marketing

- Targeted digital marketing on Facebook, Instagram and YouTube have formed the basis of our previous digital marketing campaigns.
- Consumer website which forms part of the Murray River Tourism digital platform - Visit Swan Hill was launched in 2016

Partnered with Murray Regional Tourism Board

We partnered with the Murray Regional Tourism Board which allows us to access state programs at a subsidised rate. We have previously participated in a number of promotions like what's up Down Under, Master Chef, consumer shows such as Masters Golf, Melbourne Show and Caravan & Camping.

Swan Hill Region Food and Wine Festival

We have successfully presented an annual Food and Wine weekend which attracts visitors from far and wide to our region. Visitor numbers through the gate has increased substantially from 224 in 2011 to 1947 in 2020. The Swan Hill Food and Wine Committee made the decision to cancel the 2021 event however, we look forward to the event returning in 2022.

Official Visitor Guide and Touring Guides

We have also promoted our region with the production of an Official Visitor Guide which is distributed nationally to visitor information centres. This document is updated biannually. Due to COVID-19 the Marketing Committee made the decision to delay the production of the Official Visitor Guide until the 2021/22 Financial Year.

Partnered with Swan Hill Rural City Council

We have and continue to partner with the SHRCC on various projects to promote our region since the inception of the special rate in 2002.

- Business Support Program
- Discover More Drive

HOW HAVE WE PROMOTED SHOPPING IN OUR REGION?

The Swan Hill Inc. Traders Committee have every year developed and executed a marketing plan that has promoted shopping locally through the following key activities:

Mother's Day Promotion

This competition is run for 2 weeks from the beginning of May until Mother's Day. This campaign was not ran in 2020 & 2021.

EOFY Campaign

The campaign begins mid-June with all businesses providing a loss leader product which is advertised on radio and appears every week in the Guardian from the beginning of the promotion. The campaign culminates on the last Friday of June with an outside broadcast.

• Buy Local Campaign

In 2019 Swan Hill Traders Committee invested in a Gift Card program dedicated to local businesses through 'Why Leave Town'. With a minimum purchase of \$20.00 the Swan Hill Gift Card has kept almost \$200,000 local dollars in town in local businesses in both Swan Hill and Lake Boga. This is an ongoing campaign.

Buy Swan Hill / Local Loop Campaign

Swan Hill Inc. partnered with Ace Radio every year to run the local loop, which is now known as 'The Buy Swan Hill' campaign. Local businesses receive an allocated number of 30 second slots on the radio for the duration of the year. The message in every advert conveyed the importance of supporting shopping locally.

Market Day/Things with Strings Festival

A bi-annual event held in May & October. A portion of Campbell Street is closed off and is filled with stalls and entertainment for young and old, whilst the Traders bring their wares out onto the foot paths. Both events have consistently proven to be very popular amongst locals as well as visitors in town.

• Christmas Decorations & Christmas Shopping Campaign

Every year Swan Hill Inc. ensures that the greater CBD area is adorned with colourful Christmas decorations to create a festive atmosphere in town. From mid-November until Mid-December our Christmas Shopping competition is held supporting local businesses.

SUPPORTING LOCAL EVENTS

Funded Community Projects

Swan Hill Inc. provides funding and marketing assistance to numerous community projects. Since 1 July 2015 we have provided support to the numerous festivals, events & projects. In the past these have included: Lake Boga Easter Regatta, Farmers Market, The Heartbeat of the Murray Laser Light Show, Da Vinci Exhibition, Harmony Day, Country Week Tennis, Swan Hill Show and Swan Hill Show & Shine. Swan Hill Inc. is also looking to support future events such as the 2022 Senior Tennis Championships.

BUSINESS FORUMS

- Advocacy To engage with and advocate on behalf of our members.
 - Bi-annual advocacy forums have been held to provide our members & stakeholders with a platform to engage with Swan Hill Inc. and to raise issues that the Swan Hill Inc. Board can advocate for on their behalf.
 - Swan Hill Inc. has conducted regular reviews annually with Councillors and the Council Executive team to provide updates on key achievements aligned with the annual Marketing Plan.
 - Monthly meetings are held with the CEO and senior staff of Council to raise issues and share information.
- Business Support Provide business support and direction to members and encourage the provision of quality service.

We have previously hosted 2 forums per year which included motivational /educational speakers and provided a platform for networking. Over a number of years our guest speakers have been: Max Walker, Chris Helder, Dave Straughton, Paul Lyons & Stan Grant

OUR KEY BRAND MESSAGE

"Swan Hill region - Heart of the Murray" will continue as the key theme, brand, as it provides the region with both a location identifier and a sense of "community and liveability".

Other key messages will be:

- Escape the city to an authentic country location with a variety of activities.
- The Murray River in Swan Hill is the natural part of the river, it allows for leisurely
 activities such as fishing and camping.
- The region is not commercialised it has a good mix of boutique and regular shops. Something for the whole family.

Swan Hill's point of difference is its authentic country centre experience, natural surrounds and because of the low key water sport activities allowed on the river, the region has a sense of serenity.

Unique selling points:

- Authenticity
- Murray River
- History Pioneer Settlement, Heartbeat of the Murray, Lake Boga Flying Boat Museum
- Golf quality of experience
- Fishing Cod
- Lake Boga
- Skiing
- Motor Sports
- · Nyah Forest Trails, Biking & Walking
- Bird Watching
- Events Regional events

Situation Analysis - A Snapshot of Swan Hill

SWOT Analysis

Strengths

- Climate
- Murray river location
- Family focus/lifestyle
- Pioneer Settlement
- Heritage and history
- Café and dining
- Strong agriculture industry sector
- Positive outlooks and viewed growth potential
- Strong redevelopment (CBD, race track, Chisholm Reserve & Pioneer Settlement)
- · Championship golf course
- Harness and horse racing
- · Food and wine festival
- Night product
- Lake Boga flying boat museum
- Fishing
- Water sports
- Natural assets (Nyah Forest)

Opportunities

- Industry development/emerging products
- Event development
- Development of river precinct
- Harness innovative business people, enthusiasm & can-do attitudes
- Strong redevelopment (CBD, Chisholm reserve & Pioneer Settlement)
- Bird watching
- Motor sports
- Social media influences
- Asia market
- Capitalising on the regional travel

Weaknesses

- Distance from Melbourne & other regional centres
- Lack of developed tourism product
- Skills shortage
- Ageing infrastructure (buildings, river precinct, bridge, lack of natural gas)
- Our ability to service the visitor 7 days a week
- Lack of secondary industries.
- A La Carte Dining
- No luxury accommodation or experience led accommodation led on offer.
- No Aboriginal culture experiences on offer
- No Walking tour/cycling tours on offer
- No photography classes on offer
- No Agri- Tourism offerings
- No Local foodie experience: i.e. food and drink crawl through the region.
- Where are the Bird watching opportunities?

Threats

- Business disruption due to natural disaster
- Fragmentation lack of industry support
- Uncontrollable external economic impacts
- Threat to retail from the development of global online presence
- Uncertainty due to potential floods & drought
- Blue green algae outbreak in recreational waterways
- Ross River fever outbreak
- COVID-19 outbreaks and associated restrictions such as border closures.

Our Target Markets

The Swan Hill Region has seen a downturn in visitation due to the COVID-19 pandemic. Over the course of 2020 we saw 273,000 visitors stay in region down by 34.1% on December 2019. Domestic overnight visitors spent \$99 million in region down 15.9% on the previous year.

In line with the Murray Regional Tourism - One Year Action Plan, we will be focusing on retaining and nurturing existing key markets

- 45-50+ years mid-life households & older self-funded retirees
- 25-45 years Families (Conventional and Traditional)
- All Ages Visiting friends and relatives

Our Marketing efforts will be directed to the primary source markets of:

- Regional Victoria
- Melbourne
- Regional New South Wales
- South Australia

Strategy One - Visitation to the Region

Increase visitation by specifically marketing the Swan Hill region as a place to visit and enjoy.

Committee: Marketing

The Marketing Committee has outsourced the digital component of the marketing plan to a social media specialist at Little Fish, Big Pond.

The full Marketing Strategy is provided in appendix A.

B.21.46 MOBILE FOOD TRADING

Responsible Officer: Director Development and Planning

File Number: S24-02-02

Attachments: 1 Mobile Food Traders Code of Practice DRAFT

Declarations of Interest:

Heather Green - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The Mobile Food Trading Code of Practice aims to create a balance between fixed businesses and the mobile food vendors by setting limits on available trade hours and locations. Currently mobile food vendors can only operate at private events and markets.

Discussion

Councils Regulatory Services Team has been receiving an increase in the amount of queries and applications for Mobile Food Traders to operate on Council land in the past 18 months.

A 12 month mobile food vendor trial was established at the Swan Hill Riverside Park with four different food vendors provided a permit to set up in car parking spaces within the area. The trial has included a mix of food vans including a mobile coffee van, a burger van, a pizza trailer, and an ice cream van. The trial is due to end 30 June 2021.

It is anticipated that by providing options of mobile food traders in our parks and public spaces that we can both activate those spaces and provide options for food availability during these busy periods.

The Mobile Food Trading Code of Practice aims to create a balance between fixed businesses and the mobile food vendors by setting limits on available trade hours and locations. Currently mobile food vendors can only operate at private events and markets.

In developing the Code of Practice, we have taken into consideration the following:

- Fairness to other fixed businesses with higher associated costs
- Activating the public spaces
- Food availability for tourists and community.

Fees are proposed to be set through the annual budget process. The proposed fees for mobile food traders have been benchmarked against the annual rates charged to a fixed food business. Council rates charged annually to a fixed food business is approximately \$1500.

A fair balance between fixed and mobile food traders has been attempted with the following taken into consideration when setting mobile food trader fees:

- Fixed food businesses have higher costs including rent and fixed electricity and water charges.
- Fixed food businesses have higher fit-out costs for their businesses.
- Fixed food businesses have more flexibility and longer hours (pending planning and zoning).
- Fixed food businesses are generally operated within high traffic CBD locations.
- Mobile food traders do not have access to fixed electricity or water. They must provide their own water and power.
- Mobile food traders have VicRoads registration and insurance.
- Mobile food traders do not have security of fixed locations. They are not guaranteed their locations and cannot operate if there is another event or market occurring in the same location.
- Mobile food traders have access to premium locations e.g. riverside locations.

The below proposed fees were also benchmarked against neighbouring councils with mobile food van policies to ensure we remain competitive including City of Ballarat, Gannawarra Shire Council, Greater City of Bendigo and Mildura Rural City Council.

Proposed mobile vendor fees are:

- \$1000 for an annual permit
- \$600 for a six month permit
- \$200 for a weekend permit (peak holiday periods and long weekends)
- \$100 for a weekend permit (off-peak periods)
- \$250 per year for a limited permit (less than 10 hours per week on Council land). An example will be coffee van that predominantly operates on private land.

It is also proposed to include in the permit conditions that Mobile Food Traders sign up to be members of Swan Hill Inc. and pay the temporary membership fees. The Swan Hill Inc.

The Swan Hill Inc. Levy is not able to be attached to mobile food vans through the normal fixed business rates process, however they can sign up for a temporary annual membership at a rate of \$100 per year for mobile food vans with less than 5 staff or \$250 per year for mobile food vans with 5 or more staff.

Permits are proposed to be set for the calendar year in line with the Food Act registration processes. The Public Health and Regulatory Services team will manage permit renewals and compliance under the Local Law and Food Act. Investigations of breaches of permit conditions will be investigated during business hours or after hours as required. Infringements and prosecutions may apply.

Preliminary feedback was sought from the mobile food vendors who participated in the trial. The requests from trial participants were for additional locations, designated parking spaces and access to power. All mobile food traders were happy to work alongside each other.

Further investigations required on locations for semi-permanent locations which could be potentially tendered out with fixed premium locations (e.g. concrete slab along the riverside) with access to power and water.

Consultation

Seeking approval to begin community consultation.

Consultation will be undertaken through an online survey for community and mobile food vendor feedback. It is proposed that the survey will remain open for at least two weeks to allow enough time for feedback. The survey will be promoted online and within local newspapers.

Feedback will also be sought from REBA and SH Inc. members, as well as through the Economic Development Unit email contact lists.

Financial Implications

Not applicable.

Social Implications

Activating our social spaces including riversides, lakes and parklands.

Economic Implications

Potential impact on fixed food premises and income from rates if the policy is not balanced and managed well.

Environmental Implications

Not applicable.

Risk Management Implications

Not applicable.

Council Plan Strategy Addressed

Governance and leadership - Positive community engagement through appropriate and constructive consultation.

15 June 2021

Options

Council can choose to adopt or amend the recommendation.

Recommendations

That Council seek community and business feedback on the draft Mobile Food Traders Code of Practice.

1 Introduction

The Mobile Food Trading Code of Practice aims to cement Swan Hill Rural City Council as a creative and vibrant area by supporting new ventures; activating public places with input from business, community, and entrepreneurs; supporting vibrant streets and public places as a part of daily life throughout the year; incubating and developing new and creative ideas; providing tourism experiences and enriching the life of the streets, riverfront and parklands.

The valuable contribution street activity can make to the local culture and economy is widely recognised. Elements of street activity in the form of special events and markets, street trading and busking can add to the richness of a vibrant street and riverside environment and contribute to an innate sense of safety and security of locals and tourists visiting the area.

1.1 Purpose

The purpose of the Code of Practice is to set out the objectives of Mobile Food Trading (MFT), the location rules for the purpose of MFT permits, the process of applying for a MFT permit and the Code of Practice for MFT to comply with when trading within the Swan Hill Rural City Council.

The Code of Practice encourages the use of the public space for outdoor mobile food trading because it adds value to the city for all who use it, creating opportunities for entrepreneurs and established fixed food business to activate the riverside precincts. It also allows for a range of food options and availability over busy holiday periods.

1.2 What is Mobile Food Trading?

Mobile food trading is defined as the temporary use of the public realm for preparing and dispensing food and drink products within a Mobile Food Vehicle. Mobile food traders can trade in any location within the area that complies with the MFT location rules and permit conditions.

For the purpose of this Code of Practice, Mobile Food Vehicles may include a specially purposed food van, food truck or other fully contained vehicle with wheels. It is not intended to permit street stalls.

1.3 Council's obligations

Council has an obligation to regulate and control activities and events on Council land to ensure no detriment is caused to the amenity of the neighbourhood or cause a risk or nuisance to a person.

Council has developed the Code to ensure that all persons who require a permit before carrying out an activity or event on Council land understand the minimum acceptable standards under which they operate.

1.3 Objectives of the Code of Practice

The Code of Practice aims to:

 Activate underutilised areas of the riverside precincts and public spaces to create places for creative and social activities.

3

- Activate various times of day, including less active times, with unique and creative food Trading activities in the public realm.
- Provide choice and complement food offerings provided by permanent food outlets, without negatively impacting existing businesses.
- Consider the needs of all users of the public realm, including the safety of pedestrians, and adhere to safe food handling practices.
- Ensure that locals and visitors have sufficient access to a range of food options over busy holiday periods.

1.4 Scope of the Code of Practice

The Code extends to all individuals and businesses seeking to utilise car parks, parklands or any Council land for commercial or other purposes within the Swan Hill municipality.

Mobile Food Trading vehicles may include a specially purposed food van, food truck or other fully contained vehicle with wheels. It is not intended to permit street stalls.

1.4 Related legislation

The following legislation must be considered by Council with respect to mobile food Trading;

- Local Government Act 2020 (Victoria)
- Swan Hill Rural City Council Community Local Law No. 2 (2017)
- Road Management Act 2004
- Road Safety Act 2017 (Victoria)
- Disability Discrimination Act 1992 (Commonwealth)
- Equal Opportunity Act 2010 (Victoria)
- Tobacco Act 1987 (Victoria)
- Food Act 1984 (Victoria)
- Swan Hill Rural City Council Planning Scheme

2 Definitions

Any word or phrase defined in the Community Local Law No. 2 (2017) has the same meaning in this Code.

Advertising sign means a flag, board, notice, banner or similar device used for the purposes of soliciting sales, notifying people where goods and services may be obtained, advising or directing people to an event or festival or promoting elections or political campaigns.

Amenity means a desirable or useful feature or facility of a building or place.

Authorised Officer means a Council officer appointed under section 224 of the *Local Government Act* 1989.

Council means Swan Hill Rural City Council.

Council land means land owned, occupied, or vested in the Council or in respect of which Council has the care and management and includes roadsides, parks and reserves and footpaths within Swan Hill Rural City Council.

Footpath zones includes pedestrian zone, trading zone and kerbside zone as defined in this Policy.

Local Law means Swan Hill Rural City Council Community Local Law No. 2 (2017).

Mobile food vehicle any vehicle, caravan, trailer or other similar structure used for the purpose of selling or offering food and or drink.

Walkway zone is the area of the footpath that is measured from the property boundary and is for the exclusive use of pedestrians.

Permit in relation to a use or activity, means a permit issued under the Local Law which authorises that use or activity.

Public place means a reserve, public highway, mall, road, street, bridge, footway, footpath, court, alley, passage or thoroughfare, notwithstanding that it may be formed on private property and any other place to which the public may resort.

Road has the same meaning as the Local Government Act 2020 and applies to roads for which the Council has responsibility under the Road Management Act 2004 but does not include a State road under the Road Management Act unless a provision in the Local Law is expressly applied to a State road.

3 Mobile Food Trading Zones

- Roaming mobile food traders must remain at least 150 meters from the relevant towns' CBD Zone. See appendix 1 for the CBD zone maps.
- Permits for mobile food Trading will not be permitted within 150 meters of any fixed food business.
- Mobile food trading locations in other zones not outlined within this Code of Practice will be assessed on a case-by-case basis.

3.1 Approved locations:

Approved locations for mobile food trading are identified below. A range of locations are available in other towns upon request. Mobile food traders are also able to request additional locations for consideration by contacting the Regulatory Services team on 03 5036 4753.

Council reserves the right to change or remove these locations at any time. These locations and times are not available during events and markets.

Available times for operation have been based on the EPA Noise Regulations and potential impact on residential houses, as well as impact on local food fixed food traders. The number of spots available have been based on available space and community safety.

Swan Hill

- Location 1: Riverside Park Swan Hill on the approved areas outlined in Appendix 2.
 Available times for operation: 6:00am to 9:00pm.
 Maximum three spots available at any time.
- Location 2: Barry Steggall Park car park.
 Available times for operation: 7:00am to 8:00pm.
 Maximum two spots available at any time.

Robinvale

- Location 1: Robinvale Riverside on the approved areas outlined in Appendix 2.
 Available times for operation: 6:00am to 9:00pm
 Maximum two spots available at any time.
- Location 2: Caix Square
 Available times for operation: Saturdays and Sundays from 2:00pm 8:00pm

 Maximum two spots available.

Lake Boga

Location 1: Jacaranda Crescent on the approved areas outlined in Appendix 2.
 Available times for operation: 2:00pm to 8:00pm
 Maximum three spots available at any time.

4 Permit application process

4.1 Who can apply for a Mobile Food Trading Permit?

- Mobile food traders already trading at events and markets.
- · New entrepreneurs applying for the first time.
- Fixed food business operators wanting to explore new opportunities.

4.2 Applying for a Mobile Food Trading Permit

It is imperative you read through the Code if you are a mobile food trader interested in using Council land for a commercial activity.

When applying for and/or renewing a mobile food trading permit, consideration must be given to the type of activity you intend to carry out.

Mobile Food Trading permits are limited to a certain amount of spaces per permit type per year. This is to balance the interests of pedestrian safety, community amenity and other fixed food traders.

All applications for a permit shall be in writing the prescribed form. All applications must include photographs of the food van, a copy of the \$20million public liability insurance and Streatrader Food Act registration number.

All Council fees and charges, including mobile food trading fees, are subject to an annual review as part of Council's fees and charges review process. Fees are outlined on the application form and discounted rates will be available to charities and not for profit organisations. Proof must be provided of charitable or not for profit status with application form.

4.3 Transitional Period

Existing permit holders will be given six months from the 1 July 2021 to comply with the revised policy. At the conclusion of the 6-month period, all requirements of this policy must be adhered to or the permit will not be renewed.

4.4 Council Decision Making

Applicants will be assessed on their merits, pending the availability of permits in specific locations/sections of Council.

Authority to assess and determine applications for mobile food trading permits is delegated to the Coordinator of Public Health and Regulatory Services.

Mobile Food Trading Permits may be issued by the Coordinator of Public Health and Regulatory Services.

- Permits are valid for optional durations from one weekend to 12 month periods.
- Permits are non-transferable unless written permission is granted from Council.
- The permit is to be carried at all times while Trading and produced upon request by an authorised Council Officer or Police Officer.
- Council can condition, modify or revoke a Mobile Food Trading permit.

7

The sale of alcoholic beverages is not permitted.

4.4 Decision Making

Council will not permit any activity where it could compromise pedestrian or traffic safety or cause detriment to the amenity of the area. Relevant local conditions include the width of the footpath, proximity to major roads, disabled parking bays, loading zones, clearways, trees, parking meters, location of residences and other factors.

Council has the right to approve an application as submitted or with modifications and with or without conditions as set out in the Permit. Council has the right to refuse or reject an application, modify the conditions of an existing Permit or withdraw a Permit if:

- Any conditions contained within the Mobile Food Trading Policy and Guidelines are not met.
- The sight and access of drivers, cyclists and pedestrians is interfered with so as to cause a hazardous situation.
- Permit requirements have not been previously met and there is a continuing failure to comply with directions.
- The permit holder fails to maintain public liability insurance.
- Under any circumstances likely to cause detriment to the amenity of the area.

4.5 Refusal of a Permit

Council can refuse an application if the proposed vehicle dimensions would unduly restrict the use of public roads and impact on shared trading locations.

Additionally, any disqualification from another council or outstanding fees with another council may result in a permit not being issued.

4.6 Fees

Permit fees will be set annually as part of Council's budget process.

- Annual permits will be issued with a common expiry date (31 December) each year.
 A pro-rata permit fee may be issued.
- Short term permits will be available with a set fee for six monthly, weekend (peak season) and weekend (off season) rates.
- Annual and six monthly permit will only be permitted to trade for four consecutive days in the same location. There must be a gap of at least three days before returning to that location to trade again.
- Permit fees will not be refunded.
- Permits are not transferrable. A new permit must be obtained where there is a transfer of proprietorship.
- A permit may be cancelled if the permit holder ceases to maintain public liability insurance or to meet the condition of the permit or the Mobile Food Traders Policy.

5 Specific requirements for Mobile Food Trading activities

5.1 Access and Design Requirements

Mobile food vans are encouraged in locations that enhance the amenity of the existing area and activate the public space. Design and access considerations include road type, existing street furniture, footpath widths, safety and public amenity.

Although mobile food vans operate from the street area, they are accessed by customers from the footpath area. Therefore, the interface between the Street Area and Footpath Area need to be considered when making and assessing an application for mobile food vans.

Objectives

- To protect and improve the amenity of the streetscape whilst providing a regulatory framework for mobile food vans to operate.
- To ensure the location and operation of mobile food vans does not impact the use of open space, including transport corridors and pathways, by the public.

Performance Requirements

- The location of the mobile food van must provide clear, continuous access for all
 pedestrians along nearby footpath areas and ensure no obstruction occurs to
 surrounding car parking and users of the road such as cyclists.
- Trees and other significant streetscape elements such as public art, benches, rubbish bins and bus shelters shall not be obstructed, covered, removed, damaged, relocated or modified.
- The mobile food van must not obstruct sightlines, traffic signals or road signage.
 Mobile food vans must not be parked within 10 meters of a bus or taxi parking zone.
- The food van must not impede existing traffic conditions and sightlines for both drivers and pedestrians.
- The site of the mobile food van is to be monitored at all times by the operator to provide a safe, clean and pleasant space for people to use.
- Mobile food van must be fully self-sufficient and not require external power or water connections.
- Amenity of nearby neighbours should not be compromised by the operation of the food truck, noise, odour, lighting and disposal of litter.
- A 2-metre clearance from existing street infrastructure, such as electrical boxes, fire hydrants, litter bins, public seats, payphones, bicycle stands, post boxes and parking meters is required at all times.
- A user agreement does not grant exclusivity of the designated area. The area must remain accessible to the general public at all times.

5.2 Amenity and Appearance

A mobile food trading area must protect and enhance the appearance and character of the area.

A mobile food trading vehicle may be a van, truck, cart or bike. Temporary food stalls and marquees are not acceptable. The mobile food trading vehicle must be able to be parked

within a car park and safely serve the public standing on a footpath or council land. The ordering and serving area must be from footpath-side of the vehicle only.

The mobile food vehicle must be well maintained, with a high level of cleanliness of the interior and exterior surfaces. The exterior must not contain any offensive or political advertisements. The exterior of the mobile food vehicle must not contain rust, flaking paint, or be damaged in any way. The exterior and interior must be clean of all dirt and debris.

Maintenance, Cleaning and Waste

The permit holder is required to comply with all maintenance aspects of the mobile food Trading operation. Specific requirements are:

- The mobile food trading area (including food preparation areas) must be regularly cleaned during all hours of operation.
- No trade waste or litter may be disposed of in Council public place bins.
- Mobile food traders must provide their own bins for use by their customers and ensure the area around their position is kept clear of rubbish at all times.
- All rubbish and litter must be removed by the operator at the completion of trading.
- Where Council must undertake cleaning and/or tidying of the area, the permit holder will be liable to reimburse Council for all costs incurred by in relation to the cleaning and/or tidying of the area.
- All liquid waste (including waste water and waste oil) must be contained and removed or disposed of appropriately at the end of trading.
- No waste or other material is to be deposited into the storm water system.
- No hosing down of areas or mobile food vans is to take place.
- Where practical, mobile food traders should choose power sources which generate low or no noise and air pollution.

5.3 Hours of access

Access to our reserve and public open spaces is limited to the approved permit conditions and must be specified in your application.

Swan Hill Rural City Council will not consider applications for 'blanket bookings', (E.g. Monday to Friday 9am to 6pm).

5.4 Noise Emission

The permit holder must take all necessary steps to ensure that no noise or other disturbance emanates from the footpath activity which causes a nuisance to others or causes detriment to the amenity of the neighbourhood. Music and speaker systems with amplified sound are not permitted.

5.5 Excluded Activities for all Mobile Food Traders

- No heavy vehicles on grass areas.
- No tent pegs, spikes or steel posts are permitted on any parkland / ovals with irrigation systems in place. No driving over irrigation solenoid boxes.
- Where vehicle assess is permitted there is to be no sharp turning, twisting or spinning of wheels.
- · No wet weather access for any vehicle on any park / oval

10

No water or wastewater to be allowed to empty onto the land.

6 Options for Mobile Food Vans that are not eligible for a permit

If you have a mobile food truck or food stall that is not able to be fully self-contained or meet the requirements outlined within the Code of Practice, there is still a range of opportunities available to you to sell your food to the community.

Opportunities exist at markets, events, festivals including:

- · Swan Hill Farmers Market
- · Swan Hill Food Truck Festival
- Robinvale Country Market
- Nyah Lions Club Market
- · Lake Boga Air Show and Splash In
- Lake Boga Produce and Homemaker Fair
- · Swan Hill Rotary Club Market
- Swan Hill Racing Carnival
- · Swan Hill Food and Wine Festival
- Robinvale Almond Blossom Festival
- · Robinvale Lantern Festival
- · Robinvale Euston Ski Race
- Harmony Day
- Christmas and New Years Eve events

This list is not exhaustive and there are other events that take place across the LGA throughout the year. Please contact the organisers directly to explore your options and learn about their requirements and stall holder fees.

You can also consider advertising for private events such as birthdays, parties or wedding, or consider contacting private landholders including caravan parks, school fetes, etc.

<u>Note:</u> All persons selling food or drinks must be registered under the Food Act 1984. This includes businesses, charities and not for profit organisations. Please contact the Public Health team for further information on Food Act registration on 03 5036 2591.

B.21.47 ENVIRONMENTAL MANAGEMENT POLICY (POL/INFRA503)

Responsible Officer: Director Development and Planning

File Number: S16-25P-06-503

Attachments: 1 Environmental Management Policy

(POL/INFRA503)

Declarations of Interest:

Heather Green - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This report seeks a Council resolution to adopt the updated Environmental Management Policy.

Discussion

The Environmental Management Policy (Policy) was first adopted by Council in April 2007. The Policy has since been reviewed in 2010, 2016 and is now due for another review.

The updated Policy was discussed at the 4 May 2021 Councillors Assembly meeting.

The Policy itself has been significantly updated; most notably it has been adapted to align with Environmental Management System (EMS) ISO AS/NZS 14001.

The purpose of the Policy now reads as -

Swan Hill Rural City Council's (Council) Environmental Management Policy will.

Provide Council with a strategic framework to undertake a range of activities in order to protect and enhance our local environment, including land use planning and management, climate change adaptation and mitigation, the effective management of waste and stormwater, the protection and enhancement of biodiversity, and the control of roadside weeds and pests.

This policy provides the context for the development of specific environmental strategies and management plans to enhance operational procedures and foster a culture of sustainability by aligning with Environmental Management System (EMS) ISO AS/NZS 14001 in identifying and managing environmental issues in a structured manner through the allocation of resources, assignment of responsibilities and ongoing assessment and improvement of practices, procedures and processes.

By aligning with ISO AS/NZS 14001, Council will be able to ensure its environmental impacts are being measured and improved, ensure that all legislative requirements

and other commitments are met or exceeded where possible, and that Council will continually strive to improve its practices, procedures and processes.

The scope of the Policy has been updated so that it is no longer references a triple bottom line approach to environmental management, but rather reflects a culture of sustainability at Council. The application of the modified Policy will ensure environmentally responsible behaviour in its staff and contractors and promote actions towards sustainability in the wider community.

The scope of the Policy now reads as -

This policy applies to all operations and assets of Council that the Council has direct responsibility for and control over. The application of the policy will ensure environmentally responsible behaviour in its staff and contractors and promote actions towards sustainability in the wider community.

The Policy has also been updated to ensure further strategic alignment with the Council Plan and Council operations. The capture of renewable resources to generate energy as well the integration of sustainability and sustainable development principles during decision making has been incorporated into the Policy. The five main areas identified to contribute towards Council's effective delivery of environmental management now reads as follows:

- Reduce its ecological footprint by reducing resource consumption, particularly energy, water and waste.
- Integrate principles of sustainability and sustainable development into decision making.
- Capture renewable resources to generate energy, such as solar.
- Provide for the protection, enhancement and rehabilitation of Swan Hill's natural environment on land and waters controlled by Council.
- Take into account the affects of climate change on Council operations and undertake strategic actions that enable adaption and mitigation.

And lastly, the related policies/procedures/documents have been updated to reflect the most current versions, while the related legislation has also been updated to ensure the correct legislation is quoted.

As such, the Policy now provides an updated strategic framework for Council to undertake a range of activities to protect and enhance the local environment.

Attached to this report is a copy of the final draft Policy.

Consultation

The rewrite of the Policy has been supported through internal consultation with the Executive Leadership Team, with selected departmental representatives from Engineering, Planning and Development as well as from input by Councillors at both the 4 May 2021 Councillors Assembly and 25 May 2021 Councillors Assembly.

Financial Implications

Avoid non-compliance costs for failure to meet Council's legislative responsibilities in relation to the protection of the environment.

Social Implications

Create a healthy natural environment for local communities to live, work and recreate in and assist the community to adapt to a changing climate.

Economic Implications

Stimulate economic growth in existing, new or emerging industries that rely heavily on a healthy environment.

Environmental Implications

Protect and enhance our environment for present and future generations.

Risk Management Implications

Ensures Council meets its legislative responsibilities in protecting the environment including air, water, soil and biological systems of the region.

Council Plan Strategy Addressed

Environment - Sound policies and practices that protect and enhance our environment.

Options

- 1. That Council adopt the updated Environmental Management Policy as presented.
- 2. That Council makes further changes to the Environmental Management Policy.

Recommendation

That Council adopt the updated Environmental Management Policy as presented.

Date adopted April 2007
Last review June 2021
Next review June 2024

Fully compliant with Victorian Charter of Human Rights and Responsibilities Act 2006

Responsible Officer Environment and Sustainability Officer

POLICY TITLE ENVIRONMENTAL MANAGEMENT POLICY

POLICY NUMBER POL/INFRA503

1. PURPOSE

Swan Hill Rural City Council's (Council) Environmental Management Policy will: Provide Council with a strategic framework to undertake a range of activities in order to protect and enhance our local environment, including land use planning and management, climate change adaptation and mitigation, the effective management of waste and stormwater, the protection and enhancement of biodiversity, and the control of roadside weeds and pests.

This policy provides the context for the development of specific environmental strategies and management plans to enhance operational procedures and foster a culture of sustainability by aligning with Environmental Management System (EMS) ISO AS/NZS 14001 in identifying and managing environmental issues in a structured manner through the allocation of resources, assignment of responsibilities and ongoing assessment and improvement of practices, procedures and processes.

2. SCOPE

This policy applies to all operations and assets of Council that the Council has direct responsibility for and control over. The application of the policy will ensure environmentally responsible behaviour in its staff and contractors and promote actions towards sustainability in the wider community.

3. POLICY

The Environmental Management Policy will contribute towards Council's effective delivery of environmental management in the areas of compliance, sustainability and management of its own work practices to reduce the impact on the local environment's air, water, soil and biological systems.

Specifically Council will:

 Reduce its ecological footprint by reducing resource consumption, particularly energy, water and waste.

- Integrate principles of sustainability and sustainable development into decision making.
- Capture renewable resources to generate energy, such as solar.
- Provide for the protection, enhancement and rehabilitation of Swan Hill's natural environment on land and waters controlled by Council.
- Take into account the affects of climate change on Council operations and undertake strategic actions that enable adaption and mitigation.

4. RELATED POLICIES/PROCEDURES/DOCUMENTS

To achieve significant environmental sustainability Council will continue to implement and devise a wide range of management strategies and action plans including but not limited to:

- IDM Guidelines Design and Build New Developments
- ISO AS/NZS 14001
- Resilience Action Strategy 2012-15
- Roadside Management Plan 2009-13
- Strategic Linkages Plan 2008-2011
- Sustainable Living Strategy 2017-2027
- Waste Management Strategy 2015-20
- Urban Tree Management Plan

5. RELATED LEGISLATION

- Aboriginal Heritage Act (2006)
- Biodiversity Act (2002)
- Catchment and Land protection Act (1994)
- Climate Change Act (2010)
- Commonwealth Water Act (2007)
- Conservation Forest and Lands Act (1987)

B.21.48 REVENUE AND RATING PLAN

Responsible Officer: Director Corporate Services

File Number: S29-24-02

Attachments: 1 Revenue and Rating Plan

Declarations of Interest:

Joel Lieschke - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The Revenue and Rating Plan is pivotal to support the four year Council Plan and associated annual budgets for the same period. It considers all revenue sources available to Council to fund the Council Plan.

Discussion

It is a requirement of Council, under *section 93* of the Local Government Act 2020, to adopt a four year Revenue and Rating Plan. The Plan is required to be adopted by 30 June 2021.

The Plan identifies each source of revenue to be included in the annual budget and the rationale that underpins those revenue sources.

The Revenue and Rating Plan considers rates generated revenue, service charges, grants, fees and charges, statutory fees and any entrepreneurial activities.

It provides some description of taxation principles, reference to rate capping, equitable division of the rating burden, a description of differential rating, use of property valuations, the administration of rates collection, raising of garbage service charges, application of hardship provisions and an explanation of the Fire Services Property Levy.

The Plan also explains how Council prepares for grant opportunities when they arise.

Consultation

The Plan has been publicly advertised in The Guardian and The Sentinel local newspapers, Council's website and social media outlets. No submissions were received as a result of the consultations.

Financial Implications

The Plan encompasses all streams of revenue available to Council. It effectively supports implementation of the Council Plan and budget for a four year period.

Social Implications

The Plan provides relevant information to Council's customers regarding the rationale behind the imposition of rates, charges and fees.

Economic Implications

The Plan enables financing of the five key result of economic growth, community enrichment, infrastructure, governance and leadership and environment outlined in the Council Plan.

Environmental Implications

Aids in support of Council's environmental based programs.

Risk Management Implications

The policy mitigates the risk of rapidly altered annual general rate fluctuations due to volatile property valuation shifts.

Council Plan Strategy Addressed

Governance and leadership - Effective and efficient utilisation of resources.

Options

- 1. Adopt the Rating and Revenue Plan as presented.
- 2. Adopt the Rating and Revenue Plan with amendments.

Recommendation

That Council adopt the Rating and Revenue Plan as presented.

1 Purpose

The Local Government Act 2020 requires each council to prepare a Revenue and Rating Plan to cover a minimum period of four years following each Council election. The Revenue and Rating Plan establishes the revenue raising framework within which the Council proposes to work.

The purpose of the Revenue and Rating Plan is to determine the most appropriate and affordable revenue and rating approach for Swan Hill Rural City Council which in conjunction with other income sources will adequately finance the objectives in the Council Plan.

This plan is an important part of Council's integrated planning framework, all of which is created to help Council achieve its vision of "a prosperous and healthy community enjoying quality facilities and services".

Strategies outlined in this plan align with the objectives contained in the Council Plan and will feed into our budgeting and long-term financial planning documents, as well as other strategic planning documents under our Council's strategic planning framework.

This plan will explain how Council calculates the revenue needed to fund its activities, and how the funding burden will be apportioned between ratepayers and other users of Council facilities and services.

In particular, this plan will set out decisions that Council has made in relation to rating options available to it under the *Local Government Act 2020* to ensure the fair and equitable distribution of rates across property owners. It will also set out principles that are used in decision making for other revenue sources such as fees and charges.

It is also important to note that this plan does not set revenue targets for Council, it outlines the strategic framework and decisions that inform how Council will go about calculating and collecting its revenue.

Swan Hill Rural City Council | Revenue and Rating Plan

2 Introduction

Council provides a number of services and facilities to our local community, and in doing so, must collect revenue to cover the cost of providing these services and facilities.

Rates and garbage charges are the most significant revenue source for Council and make up approximately 47% of its annual income.

The introduction of rate capping under the Victorian Government's Fair Go Rates System (FGRS) has brought a renewed focus to Council's long-term financial sustainability. The FGRS continues to restrict Council's ability to raise revenue above the rate cap unless application is made to the Essential Services Commission for a variation. Maintaining service delivery levels and investing in community assets remain key priorities for Council. This strategy will address Council's continued reliance on rate income and provide options to possibly reduce that reliance.

Council provides a wide range of services to the community, often for a fee or charge. The nature of these fees and charges generally depends on whether they relate to statutory or discretionary services. Some of these, such as statutory planning fees are set by State Government statute and are commonly known as regulatory fees. In these cases, councils usually have no control over service pricing. However, in relation to other services, Council has the ability to set a fee or charge and will set that fee based on the principles outlined in this Revenue and Rating Plan.

Council revenue can also be adversely affected by changes to funding from other levels of government. Some grants are tied to the delivery of council services, whilst many are tied directly to the delivery of new community assets, such as roads or sports pavilions. It is important for Council to be clear about what grants it intends to apply for, and the obligations that grants create in the delivery of services or infrastructure.

3 Community Engagement

The Revenue and Rating Plan outlines Council's decision-making process on how revenues are calculated and collected. The following public consultation process will be followed to ensure due consideration and feedback is received from relevant stakeholders.

Revenue and Rating Plan community engagement process:

- Draft Revenue and Rating Plan prepared by officers;
- Draft Revenue and Rating Plan placed on public exhibition for a period of 14 days and calling for public submissions;
- Community engagement through local news outlets and social media;
- · Hearing of public submissions; and
- Draft Revenue and Rating Plan (with any revisions) presented to (June 2021) Council meeting for adoption.

4 Rates and Charges

Rates are property taxes that allow Council to raise revenue to fund essential public services to cater to their municipal population. Importantly, it is a taxation system that includes flexibility for councils to utilise different tools in its rating structure to accommodate issues of equity and to ensure fairness in rating for all ratepayers.

Council has established a rating structure comprised of two key elements. These are:

- General Rates Based on property values (using the Capital Improved Valuation methodology), which are indicative of capacity to pay and form the central basis of rating under the Local Government Act 1989; and
- Service Charges A 'user pays' component for council services to reflect benefits
 provided by Council to ratepayers who benefit from a service (eg garbage service
 charge).

Striking a proper balance between these elements will help to improve equity in the distribution of the rate burden across residents.

Council makes a further distinction when applying general rates by applying rating differentials based on the purpose for which the property is used. That is, whether the property is used for residential, commercial/industrial, or farming purposes. This distinction is based on the concept that different property categories should pay a fair and equitable contribution, taking into account the benefits those properties derive from the local community.

The Swan Hill Rural City Council rating structure comprises four differential rates (general, urban with drainage, vacant residential land, commercial and dryland farm). These rates are structured in accordance with the requirements of Section 161 'Differential Rates' of the *Local Government Act 1989*, and the Ministerial Guidelines for Differential Rating 2013.

The differential rates are currently set as follows:

General (including irrigated farms and recreation)

Urban with Drainage

Vacant Residential Land

Commercial

Dryland Farms

No Differential

General Rate plus 4%

General Rate plus 320%

General Rate plus 30%

General Rate less 20%

In addition, Council is currently investigating the possibility of introducing a Commercial/Industrial vacant land differential in the 2022/23 rating year.

Council does not levy a municipal charge. The municipal charge is a minimum rate per property and declared for the purpose of covering some of the administrative costs of Council.

The ability to collect rates on low value properties is exacerbated when a municipal charge is separately charged.

Our general rate or base rate includes all administration costs in running the business of Council.

The formula for calculating General Rates, excluding any additional charges, arrears or additional supplementary rates is:

• Valuation (Capital Improved Value) x Rate in the Dollar (Differential Rate Type)

Swan Hill Rural City Council | Revenue and Rating Plan

The rate in the dollar for each rating differential category is included in Council's Annual Budget.

Rates and charges are an important source of revenue, accounting for over 45% of operating revenue received by Council. The collection of rates is an important factor in funding Council services.

Planning for future rate increases is therefore an essential component of the long-term financial planning process and plays a significant role in funding both additional service delivery and the increasing costs related to providing Council services.

Council is aware of the balance between rate revenue (as an important income source) and community sensitivity to rate increases. With the introduction of the State Government's Fair Go Rates System, all rate increases are capped to a rate declared by the Minister for Local Government, which is announced in December for the following financial year.

Council currently utilises a service charge to fully recover the cost of Council's waste services and provide for future landfill rehabilitation costs. The garbage service charge is not capped under the Fair Go Rates System.

4.1 Rating and legislation

The legislative framework set out in the *Local Government Act 1989* determines council's ability to develop a rating system. The framework provides significant flexibility for Council to tailor a system that suits its needs.

Section 155 of the *Local Government Act 1989* provides that a Council may declare the following rates and charges on rateable land:

- General rates under Section 158
- Municipal charges under Section 159
- Service rates and charges under Section 162
- Special rates and charges under Section 163

The recommended strategy in relation to municipal charges, service rates and charges and special rates and charges are discussed later in this Plan.

In raising Council rates, Council is required to primarily use the valuation of the rateable property to levy rates. Section 157 (1) of the *Local Government Act 1989* provides Council with three choices in terms of which valuation base to utilise. They are: Site Valuation (SV), Capital Improved Valuation (CIV) and Net Annual Value (NAV).

The advantages and disadvantages of the respective valuation basis are discussed further in this document. Whilst this document outlines Council's strategy regarding rates revenue, rates data will be contained in the Council's Annual Budget as required by the *Local Government Act 2020.*

Section 94(1)&(2) of the *Local Government Act 2020* states that Council must adopt a budget by 30 June each year (or at another time fixed by the Minister) to include:

- a) the total amount that the Council intends to raise by rates and charges;
- a statement as to whether the rates will be raised by the application of a uniform rate or a differential rate;
- c) a description of any fixed component of the rates, if applicable;
- d) if the Council proposes to declare a uniform rate, the matters specified in section 160 of the Local Government Act 1989;
- e) if the Council proposes to declare a differential rate for any land, the matters specified in section 161(2) of the *Local Government Act 1989*;

Section 94(3) of the *Local Government Act 2020* also prescribes that Council must ensure that, if applicable, the budget also contains a statement –

- a) that the Council intends to apply for a special order to increase the Council's average rate cap for the financial year or any other financial year; or
- that the Council has made an application to the Essential Services Commission (ESC) for a special order and is waiting for the outcome of the application; or
- that a special order has been made in respect of the Council and specifying the average rate cap that applies for the financial year or any other financial year.

This plan outlines the principles and strategic framework that Council will utilise in calculating and distributing the rating burden to property owners, however, the quantum of rate revenue and rating differential amounts will be determined in the annual Swan Hill Rural City Council budget.

In 2019 the Victorian State Government conducted a Local Government Rating System Review. The Local Government Rating System Review Panel presented their final report and list of recommendations to the Victorian Government in March 2020. The Victorian Government subsequently published a response to the recommendations of the Panel's report. However, at the time of publication the recommended changes have not yet been implemented, and timelines to make these changes have not been announced.

4.2 Rating principles

Taxation Principles:

When developing a rating strategy, in particular with reference to differential rates, a Council should give consideration to the following good practice taxation principles:

- Wealth Tax
- Equity
- Efficiency
- Simplicity
- Benefit
- Capacity to Pay
- Diversity.

Wealth Tax

The "wealth tax" principle implies that the rates paid are dependent upon the value of a ratepayer's real property and have no correlation to the individual ratepayer's consumption of services or the perceived benefits derived by individual ratepayers from the expenditures funded from rates.

Equity

Horizontal equity – ratepayers in similar situations should pay similar amounts of rates (ensured mainly by accurate property valuations, undertaken in a consistent manner, their classification into homogenous property classes and the right of appeal against valuation).

Vertical equity – those who are better off should pay more rates than those worse off (the rationale applies for the use of progressive and proportional income taxation. It implies a "relativity" dimension to the fairness of the tax burden).

Efficiency

Economic efficiency is measured by the extent to which production and consumption decisions by people are affected by rates.

Simplicity

How easily a rates system can be understood by ratepayers and the practicality and ease of administration.

Benefit

The extent to which there is a nexus between consumption/benefit and the rate burden.

Capacity to Pay

The capacity of ratepayers or groups of ratepayers to pay rates.

Diversity

The capacity of ratepayers within a group to pay rates.

The rating challenge for Council therefore is to determine the appropriate balancing of competing considerations.

Rates and Charges Revenue Principles:

Property rates will:

- be reviewed annually;
- · not usually change dramatically from one year to next; and
- be sufficient to fund current expenditure commitments and deliverables outlined in the Council Plan, Financial Plan and Asset Plan.

Differential rating should be applied as equitably as is practical and will comply with the *Ministerial Guidelines for Differential Rating 2013*.

4.3 Determining which valuation base to use

Under the *Local Government Act 1989*, Council has three options as to the valuation base it elects to use. They are:

- Capital Improved Value (CIV) Value of land and improvements upon the land.
- Site Value (SV) Value of land only.
- Net Annual Value (NAV) Annual Rental valuation based on CIV.

For residential and farm properties, NAV is calculated at 5 per cent of the Capital Improved Value. For commercial and industrial properties, NAV is calculated as the greater of the estimated annual rental value or 5 per cent of the CIV.

Capital Improved Value (CIV)

Capital Improved Value is the most commonly used valuation base by local government with over 90% of Victorian councils applying this methodology. Based on the value of both land and all improvements on the land, it is generally easily understood by ratepayers as it equates to the market value of the property.

Section 161 of the *Local Government Act 1989* provides that a Council may raise any general rates by the application of a differential rate if –

- a) It uses the capital improved value system of valuing land; and
- b) It considers that a differential rate will contribute to the equitable and efficient carrying out of its functions.

Where a council does not utilise CIV, it may only apply limited differential rates in relation to farm land, urban farm land or residential use land.

Advantages of using Capital Improved Value (CIV)

- CIV includes all property improvements, and hence is often supported on the basis that it
 more closely reflects "capacity to pay". The CIV rating method takes into account the full
 development value of the property, and hence better meets the equity criteria than
 Site Value and NAV.
- With the increased frequency of valuations (previously two year intervals, now annual intervals) the market values are more predictable and has reduced the level of objections resulting from valuations.
- The concept of the market value of property is more easily understood with CIV, than NAV or SV.
- Most councils in Victoria have now adopted CIV which makes it easier to compare relative movements in rates and valuations across councils.
- The use of CIV allows Council to apply differential rates which greatly adds to Council's
 ability to equitably distribute the rating burden based on ability to afford council rates. CIV
 allows Council to apply higher rating differentials to the specified sectors that offset other
 sectors.

Disadvantages of using CIV

 The main disadvantage with CIV is the fact that rates are based on the total property value which may not necessarily reflect the income level of the property owner as with pensioners and low-income earners.

Site value (SV)

There are currently no Victorian councils that use this valuation base. With valuations based simply on the valuation of land and with only very limited ability to apply differential rates, the implementation of Site Value in a Swan Hill Rural City Council context would cause a shift in rate burden from the industrial/commercial sectors onto the residential and rural sectors, and would hinder Council's objective of a fair and equitable rating system.

There would be further rating movements away from modern townhouse style developments on relatively small land parcels to older established homes on quarter acre residential blocks. In many ways, it is difficult to see an equity argument being served by the implementation of site valuation in the Swan Hill Rural City Council.

Advantages of Site Value

- There is a perception that under site value, a uniform rate would promote development of land, particularly commercial and industrial developments. There is, however, little evidence to prove that this is the case.
- Scope for possible concessions for urban farm-land and residential use land.

Disadvantages of using Site Value

- Under SV, there will be a significant shift from the industrial/commercial sector onto the residential and rural sectors of Council. The percentage increases in many cases would be in the extreme range.
- SV is a major burden on property owners that have large areas of land. Some of these
 owners may have much smaller/older dwellings compared to those who have smaller
 land areas but well developed dwellings but will pay more in rates. A typical example is
 flats, units, or townhouses which will all pay low rates compared to traditional housing
 styles.
- The use of SV can place pressure on Council to give concessions to categories of landowners on whom the rating burden is seen to fall disproportionately (eg. Farm land and residential use properties). Large landowners, such as farmers are disadvantaged by the use of site value.
- SV will reduce Council's rating flexibility and options to deal with any rating inequities due
 to the removal of the ability to levy differential rates.
- The community may have greater difficulty in understanding the SV valuation on their rate notices, as indicated by many inquiries from ratepayers on this issue handled by Council's customer service and property revenue staff each year.

Net annual value (NAV)

NAV, in concept, represents the annual rental value of a property. However, in practice, NAV is loosely linked to capital improved value for residential and farm properties. Valuers derive the NAV directly as 5 per cent of CIV.

In contrast to the treatment of residential and farm properties, NAV for commercial and industrial properties are assessed with regard to actual market rental. This differing treatment of commercial versus residential and farm properties has led to some suggestions that all properties should be valued on a rental basis.

Overall, the use of NAV is not largely supported. For residential and farm ratepayers, actual rental values pose some problems. The artificial rental estimate used may not represent actual market value, and means the base is the same as CIV but is harder to understand.

Recommended valuation base

In choosing a valuation base, councils must decide on whether they wish to adopt a differential rating system (different rates in the dollar for different property categories) or a uniform rating system (same rate in the dollar). If a council was to choose the former, under the *Local Government Act 1989* it must adopt either of the CIV or NAV methods of rating.

Swan Hill Rural City Council applies Capital Improved Value (CIV) to all properties within the municipality to take into account the fully developed value of the property. This basis of valuation takes into account the total market value of the land plus buildings and other improvements.

Differential rating allows (under the CIV method) Council to shift part of the rate burden from some groups of ratepayers to others, through different "rates in the dollar" for each class of property.

Section 161(1) of the *Local Government Act 1989* outlines the requirements relating to differential rates, which include:

- a) A Council may raise any general rates by the application of a differential rate, if Council considers that the differential rate will contribute to the equitable and efficient carrying out of its functions.
- b) If a Council declares a differential rate for any land, the Council must specify the objectives of the differential rate, which must be consistent with the equitable and efficient carrying out of the Councils functions and must include the following:
 - A definition of the types or classes of land which are subject to the rate and a statement of the reasons for the use and level of that rate.
 - ii. An identification of the type or classes of land which are subject to the rate in respect of the uses, geographic location (other than location on the basis of whether or not the land is within a specific ward in Council's district).
 - Specify the characteristics of the land, which are the criteria for declaring the differential rate.

Once the Council has declared a differential rate for any land, the Council must:

- a) Specify the objectives of the differential rates;
- Specify the characteristics of the land which are the criteria for declaring the differential rate.

The purpose is to ensure that Council has a sound basis on which to develop the various charging features when determining its revenue strategies and ensure that these are consistent with the provisions of the Local Government Act 1989.

The general objectives of each of the differential rates are to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council. There is no limit on the number or types of differential rates that can be levied, but the highest differential rate can be no more than four times the lowest differential rate.

Property Valuations

The *Valuation of Land Act 1960* is the principle legislation in determining property valuations. Under the *Valuation of Land Act 1960*, the Victorian Valuer-General conducts property valuations on an annual basis. Swan Hill Rural City Council applies a Capital Improved Value (CIV) to all properties within the municipality to take into account the full development value of the property. This basis of valuation takes into account the total market value of the land including buildings and other improvements.

The value of land is always derived by the principal of valuing land for its highest and best use at the relevant time of valuation.

Council needs to be mindful of the impacts of revaluations on the various property types in implementing the differential rating strategy outlined in the previous section to ensure that rises and falls in council rates remain affordable and that rating 'shocks' are mitigated to some degree.

Supplementary Valuations

Supplementary valuations are carried out for a variety of reasons including rezoning, subdivisions, amalgamations, renovations, new constructions, extensions, occupancy changes and corrections. The Victorian Valuer-General is tasked with undertaking supplementary valuations and advises Council on a monthly basis of valuation and Australian Valuation Property Classification Code (AVPCC) changes.

Supplementary valuations bring the value of the affected property into line with the general valuation of other properties within the municipality. Objections to supplementary valuations can be lodged in accordance with Part 3 of the *Valuation of Land Act 1960*. Any objections must be lodged with Council within two months of the issue of the supplementary rate notice.

Objections to property valuations

Part 3 of the *Valuation of Land Act 1960* provides that a property owner may lodge an objection against the valuation of a property or the Australian Valuation Property Classification Code (AVPCC) within two months of the issue of the original Rates and Valuation Charges Notice (Rates Notice), or within four months if the notice was not originally issued to the occupier of the land.

A property owner must lodge their objection to the valuation or the AVPCC in writing to the Swan Hill Rural City Council. Property owners also have the ability to object to the site valuations on receipt of their Land Tax Assessment. Property owners can appeal their land valuation within two months of receipt of their Council Rate Notice (via Council) or within two months of receipt of their Land Tax Assessment (via the State Revenue Office).

4.4 Rating differentials

Council believes each differential rate will contribute to the equitable and efficient carrying out of its functions. Details of the objectives of each differential rate, the classes of land which are subject to each differential rate and the uses of each differential rate are set out below.

General Rate (base rate)

Definition:

General land is any rateable land which does not have the characteristics of Urban with Drainage, Vacant Residential Land, Commercial or Dryland Farms.

Objectives:

To ensure that Council has adequate funding to undertake its strategic, statutory, service provision and community services obligations and to ensure that the differential rate in the dollar declared for defined general rate land properties is fair and equitable, having regard to the cost and the level of benefits derived from provision of Council services.

Characteristics:

The characteristics of the land are all those not subject to those detailed in the abovementioned definition. The classification of the land will be determined by the occupation of that land for its best use and have reference to the planning scheme zoning.

Types and Classes:

Rateable land that is not defined as Urban with Drainage, Vacant Residential Land, Commercial or Dryland Farm.

Use of Rate:

The differential rate will be used to fund items of expenditure described in the Budget adopted by Council. The level of the differential rate is the level which Council considers is necessary to achieve the objectives specified above.

Level of Rate:

100% of General Rate.

Use of Land:

Any use permitted under the Swan Hill Rural City Council Planning Scheme.

Geographic Location:

Wherever located within the municipal district.

Planning Scheme Zoning:

The zoning applicable to each rateable land within this category, as determined by consulting maps referred to in the relevant Swan Hill Rural City Council Planning Scheme.

Types of Buildings/Properties:

All buildings which are already constructed on the land or which are constructed prior to the end of the financial year.

Urban with Drainage Rate

Definition:

Any rateable land which is residential or industrial land within the drainage districts of Swan Hill and Robinvale.

Objectives:

The differential is to help reflect the easier access to any additional services, such as drainage and kerb and channel for properties in Swan Hill and Robinvale.

Characteristics:

The characteristics of the planning scheme zoning are applicable to the determination of urban and industrial land. The classification of the land will be determined by the occupation of that land for its best use and have reference to the planning scheme zoning.

Types and Classes:

Residential and Industrial land serviced with Council provided drainage infrastructure in Swan Hill and Robinvale.

Use of Rate:

The differential rate will be used to fund items of expenditure described in the Budget adopted by Council. The level of the differential rate is the level which Council considers is necessary to achieve the objectives specified above.

The additional 4% positive differential advancing drainage infrastructure projects.

Level of Rate:

104% of the General Rate (4% higher than the Base Rate).

Use of Land:

Residential and/or Industrial.

Geographic Location:

Within the townships of Swan Hill and Robinvale.

Planning Scheme Zoning:

Residential or industrial zoned land within the Swan Hill Rural City Council Planning Scheme.

Types of Buildings/Properties:

All buildings which are already constructed on the land or which are constructed prior to the end of the financial year, unless specifically included in the Vacant Residential Land differential.

Vacant Residential Land Rate

Definition:

Vacant Residential Land is any land which is;

- (a) situated within the townships of Swan Hill or Robinvale, and,
- (b) does not have a permanent dwelling erected.

Objectives:

To encourage the construction of domestic residences and help offset the additional infrastructure costs incurred to service residential land.

To discourage land banking and land pricing speculation.

Characteristics:

The characteristics of the planning scheme zoning are applicable to the determination of vacant land. The classification of the land will be determined by the occupation of that land for its best use and have reference to the planning scheme zoning.

Types and Classes:

Vacant residential land within the townships of Swan Hill and Robinvale that does not have a permanent dwelling established on it five years after it was last zoned residential or three years after it was sold as a subdivided residential allotment.

Use of Rate:

The differential rate will be used to fund items of expenditure described in the Budget adopted by Council. The level of the differential rate is the level which Council considers is necessary to achieve the objectives specified above.

Level of Rate:

320% of the General Rate (320% higher than the Base Rate).

Use of Land:

Residential.

Geographic Location:

Swan Hill and Robinvale townships.

Planning Scheme Zoning:

All residential zones within the Swan Hill Rural City Council Planning Scheme.

Types of Buildings/Properties:

Vacant land and land without a permanent dwelling.

Commercial Rate

Definition:

Commercial land is any land, within the townships of Swan Hill and Robinvale, which conducts business operations intended for exchange on the open market with the goal of earning profit.

Objectives:

This differential is set to help reflect the higher level of services and infrastructure to commercial properties in the serviced areas of Swan Hill and Robinvale townships and to help reflect the lower level in movement in commercial property values compared to other properties over the prior 20 year period.

Characteristics:

The characteristics of the planning scheme zoning are applicable to the determination of commercial land. The classification of the land will be determined by the occupation of that land for its best use and have reference to the planning scheme zoning.

Types and Classes:

Land used for commercial purposes within the Swan Hill and Robinvale townships serviced by Council provided drainage infrastructure.

Use of Rate:

The differential rate will be used to fund items of expenditure described in the Budget adopted by Council. The level of the differential rate is the level which Council considers is necessary to achieve the objectives specified above.

Level of Rate:

130% of the General Rate (30% higher than the Base Rate).

Use of Land:

Commercial.

Geographic Location:

Swan Hill and Robinvale townships.

Planning Scheme Zoning:

Business, Industrial or Residential 1 zones within the Swan Hill Rural City Council Planning Scheme.

Types of Buildings/Properties:

Any building used for a commercial purpose, and vacant business land.

Dryland Farms Rate

Definition:

Any land which is:

- (a) two or more hectares in area,
- (b) used for primary production purposes,
- (c) makes a profit, or has reasonable prospect of making a profit, and,
- (d) fits the description as per "Types and Classes" below.

Objectives:

This differential is to help reflect the increased difficulty in accessing the full range of Council services that Dryland farming properties face, the disproportionate increase in property values over the last number of years and the risk of seasonal income variations than that confronted by other property types.

Characteristics:

The characteristics of the planning scheme zoning are applicable to the determination of commercial land. The classification of the land will be determined by the occupation of that land for its best use and have reference to the planning scheme zoning.

Types and Classes:

Farmland without access to irrigation infrastructure that is primarily used for broad acre cropping and sheep/cattle production, within the Australian Valuation Property Classification Codes (AVPCC) of 510 (General Cropping), 520 (Domestic Livestock Grazing), 523 (Livestock Production-Sheep), 524 (Livestock Production- Beef Cattle) or 530 (Mixed farming and grazing).

Use of Rate:

The differential rate will be used to fund items of expenditure described in the Budget adopted by Council. The level of the differential rate is the level which Council considers is necessary to achieve the objectives specified above.

Level of Rate:

80% of the General Rate (20% lower than the Base Rate).

Use of Land:

Broad acre cropping and domestic livestock grazing, specifically within the AVPCC's 510, 520, 523, 524 or 530 (as detailed in "Types of Classes" above).

Geographic Location:

Anywhere within the Swan Hill Rural City Council municipality.

Planning Scheme Zoning:

Farming.

Types of Buildings/Properties:

Any building used for farming purposes.

Advantages and disadvantages of a differential rating system

Advantages of a Differential Rating System

The advantages of utilising a differential rating system summarised below are:

- There is greater flexibility to distribute the rate burden between all classes of property, and therefore link rates with the ability to pay and reflecting the tax deductibility of rates for commercial and industrial premises and farming properties.
- Differential rating allows Council to better reflect the investment required by Council to establish infrastructure to meet the needs of the commercial, industrial and farming sectors.
- Allows Council to reflect the unique circumstances of some rating categories where the application of a uniform rate may create an inequitable outcome (eg. Farming enterprises).
- Allows Council discretion in the imposition of rates to facilitate and encourage appropriate
 development of its municipal district in the best interest of the community. (ie. Vacant
 Commercial properties still attract the commercial differential rate)

Disadvantages of a Differential Rating System

The disadvantages in applying differential rating summarised below are:

- The justification of the differential rate can at times be difficult for the various groups to accept giving rise to queries and complaints where the differentials may seem to be unwarranted or excessive.
- Differential rates can be confusing to ratepayers, as they may have difficulty understanding
 the system. Some rating categories may feel they are unfavourably treated because they
 are paying a higher level of rates than other ratepayer groups.
- Differential rating involves a degree of administrative complexity as some properties can
 continually shift from one type to another (e.g. residential to commercial) requiring Council
 to update records. The accuracy/integrity of Council's data base is critical to ensure that
 properties are correctly classified into their appropriate category.
- Council may not achieve the objectives it aims for through differential rating. For example,
 Council may set its differential rate objectives to levy a higher rate on land not developed,
 however it may be difficult to prove whether the rate differential achieves those objectives.

4.5 Municipal Charge

Another principle rating option available to Councils is the application of a municipal charge. Under Section 159 of the *Local Government Act 1989*, Council may declare a municipal charge to cover some of the administrative costs of the Council. The legislation is not definitive on what comprises administrative costs and does not require Council to specify what is covered by the charge.

The application of a municipal charge represents a choice to raise a portion of the rates by a flat fee for all properties, rather than sole use of a valuation method.

Under the *Local Government Act 1989*, a council's total revenue from a municipal charge in a financial year must not exceed 20 per cent of the combined sum total of the Council's total revenue from the municipal charge and the revenue from general rates (total rates).

The municipal charge applies equally to all properties and is based upon the recovery of a fixed cost of providing administrative services irrespective of valuation. The same contribution amount per assessment to cover a portion of Councils' administrative costs can be seen as an equitable method of recovering these costs.

Council, currently, does not levy a municipal charge. This is primarily due to the number of lowly valued properties in smaller urbans where, if a municipal charge was levied, would far outweigh the general rate raised.

4.6 Special Charge Schemes

The Local Government Act 1989 recognises that councils sometimes need help to provide improved infrastructure for their local communities. Legislation allows councils to pass on the cost of capital infrastructure to the owner of a property that generally receives a unique benefit from the construction works. The technical explanation of a Special Charge comes from legislation (under the *Local Government Act 1989*) that allows councils to recover the cost of works from property owners who will gain special benefit from that work.

The purposes for which special rates and special charges may be used include road construction, kerb and channelling, footpath provision, drainage, and other improvement projects.

The special rate or special charges may be declared on the basis of any criteria specified by the council in the rate (Section 163 (2)). In accordance with Section 163 (3), Council must specify:

- a. the wards, groups, uses or areas for which the special rate or charge is declared; and
- b. the land in relation to which the special rate or special charge is declared;
- c. the manner in which the special rate or special charge will be assessed and levied; and
- d. details of the period for which the special rate or special charge remains in force.

The special rates and charges provisions are flexible and can be used to achieve a wide range of community objectives. The fundamental principle of special rates and charges is proof "special benefit" applies to those being levied. For example, landscaping and environmental improvement programs that benefit small or localised areas could be funded using special rates or charges.

Council currently has one special charge scheme in operation. Council declared, on 16 April 2019, a Special Rate for marketing and business development programs applicable to commercial, industrial and tourism and hospitality type properties. The declaration is for a seven-year period ending on 30 June 2026.

The three property types are charged different rates in the dollar, with associated minimum and maximum rate amounts applicable.

4.7 Service Rates and Charges

Section 162 of the *Local Government Act 1989* provides Council with the opportunity to raise service rates and charges for any of the following services:

- a. The provision of a water supply;
- b. The collection and disposal of refuse;
- c. The provision of sewage services;
- d. Any other prescribed service.

Council currently applies a service charge for the collection and disposal of refuse on properties within the declared garbage service collection area where there is a habitable dwelling on the property. Council offers the choice between a 120 Litre service and a 240 Litre service. A 240 Litre recycling service is provided free of charge. An optional 240 Litre green waste service is also available in the Swan Hill residential area.

The amount of service charge is considered each year as part of the annual budget process.

Council retains the objective of setting the service charge for waste at a level that fully recovers the cost of the waste services, including providing for Environment Protection

Authority licensing requirements and the cost of rehabilitation of the Council's landfill sites once they reach the end of their useful life(s).

It is recommended that Council retain the existing waste service charge – should Council elect not to have a waste service charge, this same amount would be required to be raised by way of an increased general rate – meaning that residents in higher valued properties would substantially pay for the waste service of lower valued properties, and increase rates on properties where no waste service currently exists.

Whilst this same principle applies for rates in general, the mix of having a single fixed charge combined with valuation driven rates for the remainder of the rate invoice provides a balanced and equitable outcome.

4.8 Collection and Administration of Rates and Charges

The purpose of this section is to outline the rate payment options, processes, and the support provided to ratepayers facing financial hardship.

Payment options

In accordance with section 167(1) of the *Local Government Act 1989* ratepayers have the option of paying rates and charges by way of four instalments. Payments are due on the prescribed dates below:

1st Instalment: 30 September
2nd Instalment: 30 November
3rd Instalment: 28 February

4th Instalment: 31 May

Council has, for the previous 17 years, offered an early payment discount if the four instalments were paid by 30 September. Council will not be offering a discount for the 2021-2022 year due to record low interest rates making the discount offer unviable. The discount will be considered in succeeding years.

Council offers a range of payment options including:

- in person at Council Offices (cheques, money orders, EFTPOS, credit/debit cards and cash),
- online via Council's ratepayer portal, direct debit (on prescribed instalment due dates, monthly or fortnightly),
- BPAY,
- Australia Post (over the counter, over the phone via credit card and on the internet),
- by mail (cheques and money orders only).
- Centrepay

Council may reduce the higher charge options, such as Australia Post, as the trend increases toward cheaper electronic payment options. The handling of cash (notes and coins) may also be phased out as this form of currency becomes less popular and more susceptible to transmission of disease such as coronavirus.

Interest on arrears and overdue rates

Interest is charged on all overdue rates in accordance with Section 172 of the *Local Government Act 1989*. The interest rate applied is fixed under Section 2 of the *Penalty Interest Rates Act 1983*, which is determined by the Minister and published by notice in the Government Gazette.

Council may waive penalty interest charges where financial hardship is clearly evident, such as during the worldwide coronavirus pandemic.

Pensioner rebates

Holders of a CentreLink or Veteran Affairs Pension Concession card or a Veteran Affairs Gold card which stipulates TPI or War Widow may claim a rebate on their principal place of residence. Upon initial application, ongoing eligibility is maintained, unless rejected by CentreLink or the Department of Veteran Affairs during the annual verification procedure. Upon confirmation of an eligible pensioner concession status, the pensioner rebate is deducted from the rate account before payment is required by the ratepayer.

New applicants, after being granted a Pensioner Concession Card (PCC), can apply for the rebate at any time throughout the rating year. Retrospective claims up to a maximum of one previous financial year can be approved by Council on verification of eligibility criteria, for periods prior to this claims need to be approved by the relevant government department.

Deferred payments

Under Section 170 of the *Local Government Act 1989*, Council may defer the payment of any rate or charge for an eligible ratepayer whose property is their sole place of residency, allowing ratepayers an extended period of time to make payments or alternatively to forestall payments on an indefinite basis until the ratepayer ceases to own or occupy the land in respect of which rates and charges are to be levied.

Deferral of rates and charges are available to all ratepayers who satisfy the eligibility criteria and have proven financial difficulties. Where Council approves an application for deferral of rates or charges, interest will continue to be levied on the outstanding balance of rates and charges.

Ratepayers seeking to apply for such provision will be required to submit a Rates Financial Hardship Application which is available at the Council offices, on the Council website or can be posted upon request.

Rates Assistance Policy

It is acknowledged at the outset that various ratepayers may experience financial hardship for a whole range of issues and that meeting rate obligations constitutes just one element of a number of difficulties that may be faced. The purpose of the Rates Financial Hardship Policy is to provide options for ratepayers facing such situations to deal with the situation positively and reduce the strain imposed by financial hardship.

Ratepayers may elect to either negotiate a rate payment plan or apply for a rate deferral. Ratepayers seeking to apply for such provision will be required to submit a Rates Financial Hardship Application form which is available at the Council offices, website or can be posted upon request.

Such applications are considered on an individual case basis under Council's Financial Hardship policy, and include a variety of assistance measures, including; agreed repayment plans, payment deferral, extension of interest free periods, interest penalty reductions or partial rates reduction.

Debt recovery

Council makes every effort to contact ratepayers at their correct address but it is the ratepayers' responsibility to properly advise Council of their contact details. The *Local Government Act 1989* Section 230 and 231 requires both the vendor and buyer of property,

or their agents (e.g. solicitors and or conveyancers), to notify Council, by way of a formal notice of disposition or acquisition of an interest in land, of the correct address.

In the event that an account becomes overdue, Council will issue an overdue reminder notice which will include accrued penalty interest. In the event that the account remains unpaid, Council may take legal action without further notice to recover the overdue amount. All fees and court costs incurred will be recoverable from the ratepayer.

If an amount payable by way of rates in respect to land has been in arrears for three years or more, Council may take action to sell the property in accordance with the *Local Government Act 1989* Section 181.

Fire Services Property Levy

In 2012 the Victorian State Government passed legislation requiring the Fire Services Property Levy to be collected from ratepayers. Previously this was collected through building and property insurance premiums. The Fire Services Property Levy helps fund the services provided by the Metropolitan Fire Brigade (MFB) and Country Fire Authority (CFA), and all levies collected by Council are passed through to the State Government.

The Fire Services Property Levy is based on two components, a fixed charge, and a variable charge which is linked to the Capital Improved Value of the property. This levy is not included in the rate cap and increases in the levy are at the discretion of the State Government.

5 Other Revenue Items

5.1 User fees and charges

User fees and charges are those that Council will charge for the delivery of services and use of community infrastructure.

Examples of user fees and charges include:

- After School and Vacation Care fees
- · Leisure Centre, Gym, and Pool visitation and membership fees
- Aged Care service fees
- · Leases and facility hire fees
- Admission Fees (attractions, galleries and performances)
- Livestock Market Usage Charges
- · Cropping Leases
- Commercial/Brokered Works

The provision of infrastructure and services form a key part of Council's role in supporting the local community. In providing these, Council must consider a range of 'Best Value' principles including service cost and quality standards, value-for-money, and community expectations and values. Council must also balance the affordability and accessibility of infrastructure and services with its financial capacity and in the interests of long-term financial sustainability.

Councils must also comply with the government's Competitive Neutrality Policy for significant business activities they provide and adjust their service prices to neutralise any competitive advantages when competing with the private sector.

In providing services to the community, Council must determine the extent of cost recovery for particular services consistent with the level of both individual and collective benefit that the services provide and in line with the community's expectations.

Services are provided on the basis of one of the following pricing methods:

- a. Market Price
- b. Full Cost Recovery Price
- c. Subsidised Price

Market pricing (a) is where Council sets prices based on the benchmarked competitive prices of alternate suppliers. In general market price represents full cost recovery plus an allowance for profit. Market prices will be used when other providers exist in the given market, and Council needs to meet its obligations under the government's Competitive Neutrality Policy.

It should be noted that if a market price is lower than Council's full cost price, then the market price would represent Council subsidising that service. If this situation exists, and there are other suppliers existing in the market at the same price, this may mean that Council is not the most efficient supplier in the marketplace. In this situation, council will consider whether there is a community service obligation and whether Council should be providing this service.

Full cost recovery price (b) aims to recover all direct and indirect costs incurred by council. This pricing should be used in particular where a service provided by Council, benefits individual customers specifically, rather than the community as a whole. In principle, fees and charges should be set at a level that recovers the full cost of providing the services unless there is an overriding policy or imperative in favour of subsidisation.

Subsidised pricing (c) is where Council subsidises a service by not passing the full cost of that service onto the customer. Subsidies may range from full subsidies (ie Council provides the service free of charge) to partial subsidies, where Council provides the service to the user with a discount. The subsidy can be funded from Council's rate revenue or other sources such as Commonwealth and State funding programs. Full Council subsidy pricing and partial cost pricing should always be based on knowledge of the full cost of providing a service.

As per the Victorian Auditor General's Office report "Fees and charges – cost recovery by local government" recommendations, council has developed a user fee pricing policy to help guide the fair and equitable setting of prices. The policy outlines the process for setting fee prices and includes such principles as:

- Both direct and indirect costs to be taken into account when setting prices;
- Accessibility, affordability and efficient delivery of services must be taken into account;
 and
- Competitive neutrality with commercial providers.

Council will develop a table of fees and charges as part of its annual budget each year. Proposed pricing changes will be included in this table and will be communicated to stakeholders when the budget is advertised seeking public submissions. This gives the opportunity to review and provide valuable feedback before the fees are locked in.

5.2 Statutory fees and charges

Statutory fees and fines are those which Council collects under the direction of Legislation or other government directives. The rates used for statutory fees and fines are generally advised by the state government department responsible for the corresponding services or legislation, and generally councils will have limited discretion in applying these fees.

Examples of statutory fees and fines include:

- Planning and subdivision fees
- Building and Inspection fees
- · Infringements and fines
- Land Information Certificate fees

Penalty and fee units are used in Victoria's Acts and Regulations to describe the amount of a fine or a fee.

Penalty units

Penalty units are used to define the amount payable for fines for many offences. For example, the fine for selling a tobacco product to a person aged under 18 is four penalty units.

One penalty unit is currently \$165.22, from 1 July 2020 to 30 June 2021.

The rate for penalty units is indexed each financial year so that it is raised in line with inflation. Any change to the value of a penalty unit will happen on 1 July each year.

Fee units

Fee units are used to calculate the cost of a certificate, registration or licence that is set out in an Act or Regulation. For example, the cost of depositing a Will with the Supreme Court Registrar of probates is 1.6 fee units.

The value of one fee unit is currently \$14.81 (May 2020). This value may increase at the beginning of a financial year, at the same time as penalty units.

The cost of fees and penalties is calculated by multiplying the number of units by the current value of the fee or unit. The exact cost may be rounded up or down.

5.3 Grants

Grant revenue represents income usually received from other levels of government. Some grants are singular and attached to the delivery of specific projects, whilst others can be of a recurrent nature and may or may not be linked to the delivery of projects.

Council will pro-actively advocate to other levels of government for grant funding support to deliver important infrastructure and service outcomes for the community. Council may use its own funds to leverage higher grant funding and maximise external funding opportunities.

When preparing its financial plan, Council considers its project proposal pipeline, advocacy priorities, upcoming grant program opportunities, and co-funding options to determine what grants to apply for. Council will only apply for and accept external funding if it is consistent with the Community Vision and does not lead to the distortion of Council Plan priorities.

Grant assumptions are then clearly detailed in Council's Budget document. A project is unlikely to proceed if the grant funding is not forthcoming. (Grants are developed via Council's Grants Application Policy CORP231).

5.4 Contributions

Contributions represent funds received by Council, usually from non-government sources, and are usually linked to projects.

Contributions can be made to Council in the form of either cash payments or asset handovers.

Examples of contributions include:

- Monies collected from developers under planning and development agreements
- Monies collected under developer contribution plans and infrastructure contribution plans
- Contributions from user groups towards upgrade of facilities
- Assets handed over to Council from developers at the completion of a subdivision, such as roads, drainage, and streetlights.

Contributions should always be linked to a planning or funding agreement. Council will not undertake any work on a contribution-funded project until a signed agreement outlining the contribution details is in place.

Contributions linked to developments can be received well before any Council expenditure occurs. In this situation, the funds will be identified and held separately for the specific works identified in the agreements.

5.5 Interest on investments

Council receives interest on funds managed as part of its investment portfolio, where funds are held in advance of expenditure, or for special purposes. The investment portfolio is managed per Council's financial investment policy, which seeks to earn the best return on funds, within an acceptable level of risk.

5.6 Borrowings

Whilst not a source of income, borrowings can be an important cash management tool in appropriate circumstances. Loans can only be approved by Council resolution. The following financial sustainability principles must be adhered to with new borrowings:

- Borrowings must only be applied for where it can be proven that repayments can be met in the Long Term Financial Plan
- Borrowings must not be used to fund ongoing operations
- Borrowings are appropriate for funding large capital works where the benefits are provided to future generations.
- · Council will maintain its debt at levels which are sustainable, with:
 - o indebtedness <60% of rate and charges revenue, and
 - debt servicing cost <5% of total revenue (excluding capital revenue and any specific purpose reserve monies to pay out loan principal).

SECTION B - REPORTS 15 June 2021

B.21.49 ADOPTION OF 2021/22 (2022) BUDGET

Responsible Officer: Director Corporate Services

File Number: S15-06-13

Attachments: Nil

Declarations of Interest:

Joel Lieschke - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

Following the statutory advertising period, the Financial Year (FY) 2022 Budget is ready for adoption. The Budget is the primary source of financial control across Council operations, and expresses the nature and level of Council's service and infrastructure provision in financial terms for the financial year ending 30 June 2022.

Due to the ongoing impact of Council's response to the Covid-19 pandemic being unpredictable, the Budget has been prepared based on the best available information at the time, which primarily reflects a business-as-usual approach. A Revised Budget may be required to be prepared later in the year if any significant and material variations to our 'going-concern' are identified.

Discussion

At the close of the statutory advertising period, two (2) submissions were received. The submissions were formally received and heard at the Unscheduled Council Meeting on 1 June 2021. A response to the submissions was provided at the Unscheduled Council Meeting on 8 June 2021. Council formally considered the submissions at that meeting. Officers will meet with the Robinvale based submitter to discuss her submission when Covid restrictions ease.

The points raised in the submissions do not require the Budget to be amended.

Council is now in a position to adopt the Budget.

Councilors' have been involved in the preparation of the Budget and are well informed as to its content however; highlights and significant issues are as follows:

1. Rating Strategy

The FY2022 Budget proposes an average increase on the annualised FY2021 Rates of 1.47%.

The proposed average rate rise is below the State Government's Rate Cap of 1.50%.

As a result of new property valuations that will be applied from 1 July 2021, the Dryland Farming differential rate discount on the General Rate has been returned to the pre-covid level of 20% (27.5% FY2021). Similarly, the differential for Commercial

properties will return to the pre-covid percentage of 30% premium differential (12.5% FY2021). In addition, a higher premium differential of 320% of the general rate (307.7% FY2021) has been applied to Vacant Residential land in Swan Hill and Robinvale to discourage land banking and speculation, and encourage the construction of residences to relieve housing supply shortages in these major towns.

This return to the status-quo of FY2020 results in a more even distribution of the rate rise due to the higher residential property valuations in Swan Hill and Robinvale.

2. Waste Management

The Budget reflects increased waste management charges at landfill sites in line with increased EPA levies (62% from 1/07/2021) and increasing cost of landfill management, kerbside collection, and processing of recyclable materials.

The fee for a 120 litre garbage bin will be \$343 (\$335 FY2021) and a 240 litre bin will be \$520 (\$508 FY2021). The optional green waste service charge will be unchanged at \$95 for the fourth year.

3. Operations

The Budget maintains the current level of operational services except where Government Policy changes are occurring or a service can be better provided by the private sector. \$40.5 million (excluding depreciation) will be spent on these services primarily on Infrastructure maintenance and provision, Family, Youth and Aged services, Recreational facilities, Economic and Community Development, Tourism, Waste Management and Municipal administration costs.

4. Capital Works

The Budget proposes a \$26.4 million capital works program focusing on infrastructure creation and replacement, which is dependent on receiving \$14.0 million in external funding.

Some of the major works to be undertaken include:

- \$7.9 million for road works,
- \$7.8 million to continue the implementation of the Our Region Our Rivers projects,
- \$1.8 million to develop housing in Robinvale,
- \$2.4 million for lighting and runway upgrades at the Swan Hill Aerodrome,
- \$1.4 million for the Swan Hill Regional Soccer Hub,
- \$0.5 million major maintenance to community buildings,
- \$0.4 million to implement Community Plans including the Vibrant Villages Project,
- \$0.6 million for an upgrade to the carpark at the Lake Boga Flying Boat Museum, and
- \$0.5 million for the Robinvale Riverside Park Irrigation and Pump Shed Upgrade.

5. Asset Management

The Budget clearly focuses on asset management issues and the need to fund infrastructure and plant & equipment replacements.

\$11.1 million (is subject to external funding) will be spent replacing Councils assets, primarily roads, footpaths, drains and plant & equipment.

6. Financial Management

The Budget predicts an operating surplus of \$10.7 million and a rates surplus of \$102,000. Net debt will decrease by \$2.5 million. Net assets are budgeted to increase by \$42.1 million due mainly to asset revaluations (\$6.8M), capital expenditure (\$26.4M) and repayment of borrowings (\$5.2M). Cash and investments will decrease to \$23.0 million as surplus cash is used to fund carry-over capital works from FY2021 during the 2022 financial year. Current assets will exceed current liabilities at 30 June 2021 by \$15.3 million.

Consultation

A Draft Budget Presentation video was recorded by the CEO and Mayor and uploaded to social media and onto Council's website on 4 May 2021. The YouTube video reached 486 people of which 24 engagements were received, such as 'Likes' and other comments.

A formal advertising and submission process has taken place. Two submissions were received. Suggestions for projects and programs from the community were also received during the year and considered as part of the Budget preparation process.

Government grants to stimulate the local economy have enabled projects to be brought forward into this year's Budget, as will further stimulus grant notifications advised by various government departments throughout the coming financial year.

Financial Implications

The Local Government Act 2020 (Section 94) requires a Council to prepare and adopt a Budget before the statutory deadline of 30 June each year.

Adoption of the FY2022 Budget authorises Council Officers to expend Council funds and raise revenue to implement the budgeted programs and projects.

The Budget has been prepared on a business-as-usual basis. This is an optimistic view given the current pandemic and relies on economic recovery continuing to come from government stimulus and measures that we can introduce in adjusting service delivery in response to restrictions imposed by government.

Due to the ongoing nature of pandemic, it may also be necessary to prepare a Revised Budget later in the financial year if any significant and material variations are identified.

Social Implications

Council's Budget covers all aspects of Council operations and therefore impacts economic, social and environmental outcomes.

Economic Implications

As above.

Environmental Implications

As above.

Risk Management Implications

Setting a Budget is a vital control that enables the organisation to track financial performance.

Council Plan Strategy Addressed

Governance and leadership - Effective and efficient utilisation of resources.

Options

- 1. Adopt the FY2022 Budget as advertised.
- 2. Adopt the FY2022 Budget with minor amendments.

Recommendations

That Council:

- 1. Having considered the two submissions, adopt the Budget as advertised.
- 2. Declare that \$25,579,600 be raised in Rates for the 2022 financial year.
- 3. Declare a Differential Rate of 0.705171 cents in the dollar of Capital Improved Value for rateable Commercial properties within Residential 1, Business or Industrial zones of the Swan Hill Planning Scheme in the townships of Swan Hill and Robinvale.
- 4. Declare a Differential Rate of 0.564138 cents in the dollar of Capital Improved Value for rateable Residential and Industrial properties within the drainage districts of Swan Hill and Robinvale townships.
- 5. Declare a Differential Rate of 1.735751 cents in the dollar of Capital Improved Value for rateable Vacant Residential Land within the townships

- of Swan Hill and Robinvale that have remained as vacant land for a minimum of 5 years since it was last zoned as residential land or 3 years after its sale as a residential allotment, whichever is the latter.
- 6. Declare a Differential Rate of 0.433951 cents in the dollar of Capital Improved Value for rateable Farming properties without access to irrigation water infrastructure and which are primarily used for broad-acre grain/sheep production and are allocated an Australian Valuation Property Classification Code of 510, 520, 523, 524 or 530.
- 7. Declare a Differential Rate of 0.542439 cents in the dollar of Capital Improved Value for all other rateable land within the municipality.
- 8. Declare a Garbage Service Charge of \$343 for a 120 litre bin service and \$520 for a 240 litre bin service for Residential properties within the declared garbage service areas of the Municipality, for the year commencing 1 July 2021.
- 9. Declare an optional Green Waste Garbage Service Charge of \$95 for a 240 litre bin service for Residential properties within the declared garbage service area of Swan Hill City (collection area number 20) for the year commencing 1 July 2021.
- 10. Provide a payment equivalent to 50% of the applicable rates for Not-For-Profit Recreational properties, which would have been previously entitled to the lower Recreational Differential Rate.
- 11. Provide a payment equivalent to 50% of the difference between the Commercial Rate and Urban Rate in Swan Hill and Robinvale for Commercial properties in Common Occupancy with a residence.

15 June 2021

B.21.50 DIVERSITY POLICY

Responsible Officer: Director Community & Cultural Services

File Number: POL/COMM807
Attachments: 1 Diversity Policy

Declarations of Interest:

Bruce Myers - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

Council's Diversity Policy has been reviewed, and is presented to Council for adoption.

Discussion

Council's first Diversity Policy developed from discussions concerning the rapidlychanging multicultural demographics of the community.

During the past four years, the State Government has introduced requirements for several funded services to produce service-specific Diversity Actions Plans. For example, the Commonwealth Home Support Program (CHSP), formally Home and Community Care (HACC), requires a 'Diversity Plan' which is a brief checklist for improving inclusiveness in direct service delivery.

Recent State-wide and national focus on gender equality, LGBTI inclusiveness and the community's broadening multiculturalism created an opportunity for Council to fully review the overarching Policy.

Consultation

This review of the Diversity Policy was primarily internal, with the review taking into account State and Commonwealth policy statements.

Financial Implications

Not applicable to this report.

Social Implications

This Policy outlines Council's commitment to recognition and celebration of diversity in the community and provides an overarching direction for development of appropriate plans to better work with the community.

Economic Implications

Recognition of diversity and inclusiveness are important in attracting and retaining residents from all backgrounds.

Environmental Implications

Not applicable to this report.

Risk Management Implications

Not applicable to this report.

Council Plan Strategy Addressed

Community enrichment - Help all people to find a place in our community.

Options

- 1. Council may make changes to the draft reviewed Policy, or
- 2. Adopt the Policy as presented.

Recommendation

That Council adopt the reviewed Diversity Policy as presented.

Attachment 1 Diversity Policy

Date adopted September 2012

Last review June 2021

Next review June 2023

Fully compliant with Victorian Charter of Human Rights and Responsibilities Act 2006

Responsible Officer Director Community and Cultural Services

POLICY TITLE DIVERSITY POLICY

POLICY NUMBER POL/COMM807

1. PURPOSE

This Policy articulates Swan Hill Rural City Council's (Council) position in relation to diversity in all its forms. Council acknowledges and celebrates the contribution that diversity brings to social and economic development opportunities within the municipality.

2. SCOPE

This Policy applies to all Council programs providing services to communities within the municipality.

3. DEFINITIONS

Diversity: Diversity relates to race, ethnicity, culture, gender, sexual orientation,

socio-economic status, age, language, physical and mental abilities, religious beliefs, political beliefs, other ideologies, within Australian law.

4. POLICY

Council celebrates diversity in all its forms, in recognition and support of the diverse population of the Swan Hill municipality.

Council will strive to ensure equity and access in providing services and infrastructure, taking into account the diversity of its community.

Council will advocate to other levels of government on behalf of the community to ensure that adequate, equitable and appropriate services and infrastructure are provided, taking into account the diverse needs of the community.

B.21.51 DEPUTY MAYOR POSITION POLICY

Responsible Officer: Chief Executive Officer

File Number: \$16-25P-02-006

Attachments: 1 Deputy Mayor Position Policy

Declarations of Interest:

John McLinden - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The Deputy Mayor Position Policy has been reviewed in accordance with its set review period.

Discussion

The Deputy Mayor Position Policy provides guidelines for the appointment and role of the Deputy Mayor and applies to all Councillors.

Formatting has been updated and minor content updates have been made to bring the policy in line with the Local Government Act 2020 and Council's Governance Rules.

Consultation

Not applicable.

Financial Implications

The position of Deputy Mayor is not recognised by the Local Government Act as a position that attracts an allowance. As such, the Deputy Mayor shall receive the Councillor allowance as set by Council in accordance with the Act.

Social Implications

Not applicable.

Economic Implications

Not applicable.

Environmental Implications

Not applicable.

Risk Management Implications

Not applicable.

Council Plan Strategy Addressed

Governance and leadership - Effective and efficient utilisation of resources.

Options

- 1. That Council adopts the Deputy Mayor Policy as presented.
- 2. That Council not adopt the Deputy Mayor Policy.

Recommendation

That Council adopt the Deputy Mayor Policy as presented.

Date adopted September 1999
Last review June 2021
Next review June 2025

1. PURPOSE

The purpose of this procedure is to establish guidelines for the appointment and role of the Deputy Mayor.

2. SCOPE

This procedure applies to all Councillors.

3. PROCEDURE

The process of election of the position of Deputy Mayor shall be in accordance with Council's Governance Rules in force at the time of the election.

3.1. Activation of Position

The Deputy Mayor may perform the role of the Mayor and may exercise any of the powers of the Mayor if—

- (a) the Mayor is unable for any reason to attend a Council meeting or part of a Council meeting; or
- (b) the Mayor is incapable of performing the duties of the office of Mayor for any reason, including illness; or
- (c) the office of Mayor is vacant.

Council will determine whether to continue with the role of Deputy Mayor at the meeting scheduled for the election of the Mayor.

B.21.52 SETTING OF COUNCILLOR ALLOWANCES

Responsible Officer: Chief Executive Officer

File Number: S24-08-00

Attachments: Nil

Declarations of Interest:

John McLinden - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

An important reform of the Local Government Act 2020 (2020 Act) is the transfer of responsibilities in determining mayoral, deputy mayoral and councillor allowances to the Victorian Independent Remuneration Tribunal (the Remuneration Tribunal).

However, until the Remuneration Tribunal makes its first determination on allowances, the allowance framework under the Local Government Act 1989 (1989 Act) continues to apply, despite the repeal of those relevant provisions last year. Section 39(6) of the 2020 Act provides for this transitional arrangement.

Under section 74(1) of the 1989 Act, councils must review and determine the level of mayoral and councillor allowances within six months of a general election or by 30 June, whichever is later.

In undertaking their reviews, councils must ensure that a person has a right to make a submission under section 223 of the 1989 Act (as required by section 74(4)).

Mayors and councillors are entitled to receive an allowance while performing their duty as an elected official. The Victorian Government sets the upper and lower levels for allowances paid to councillors.

The allowance package is based on a three-category model of Council allowances, based on revenue and population figures and ensures Councils can retain flexibility and discretion to set allowances within a range in consultation with their community.

Once adopted, following a Statutory advertising and submission process, Councillors are entitled to receive the new Councillor or Mayoral allowance. The current allowance will be paid until that date.

Discussion

Current annual allowances set for this Council are a Mayoral allowance of \$67,562.88 and a Councillor allowance of \$25,466.01, per annum.

The current allowance range applicable to this Council is:

Category 2 – Councillors from \$10,914-\$26,245 and up to \$81,204 for the Mayor, per annum.

Additionally, a remote travel allowance will continue to provide compensation for the time spent on long distance travelled by Councillors in remote areas, this allowance provides for a maximum limit of \$5,000 per annum (at daily rate of \$40 in respect to

each meeting or function) or as may be amended from time to time by Order in

Superannuation at 9.5% is paid in addition to the allowance. Please note this will increase when the Government increases the Superannuation Guarantee Levy.

Councillors are not employees of their Council and do not receive employment benefits like leave entitlements.

Additional support is provided to Councillors in accordance with the Act and Council Policy. These include;

Resources/facilities mandatory

- Administration support
- Office access for the Mayor and Councillors
- Vehicle for the Mayor
- Computer-desktop and iPad or a laptop
- Fax/printer

Council.

- Mobile phone and landline if required
- Stationery
- Access to fax/copier

Reimbursement will be provided for Council related:

- Travel including reimbursement of public transport costs
- Phone call costs
- Internet
- Child care/family care

During preliminary discussions on this matter Council have indicated a preference to preserve the current allowances (0 increase) due to the economic situation, as a result of the Covid-19 response.

Consultation

Council must follow a legislated Section 223 of the 1989 Act (as required by section 74(4)) consultation and submission process prior to finalising the level of allowances.

Financial Implications

Costs associated with Councillor Allowances are included in the budget each year. The budget has capacity to lift allowances by 2.0% and still remain within the thresholds applied to category 2 councils.

Social Implications

Not applicable.

Economic Implications

Not applicable.

Environmental Implications

Not applicable.

Risk Management Implications

Not applicable.

Council Plan Strategy Addressed

Governance and leadership - Effective and efficient utilisation of resources.

Options

The Office of Local Government has advised that Councillors are unable to change any aspect of their allowances during their term. The indexation set by the Minister for Local Government automatically applies the allowances each year.

Recommendations

That Council:

- 1. Preserve the current Mayoral and Councillor Allowances with no increase on the previous year.
- 2. Pay a remote travel allowance, to be paid at a rate of \$45.00 per meeting or function (to a maximum annual value of \$5,600).

- 3. Advertise the proposed allowances and seek submissions in accordance with Section 223 of the Local Government Act 1989.
- 4. In the event no submissions are received, adopt the preservation of current allowances and increase in travel allowance at the July Council meeting.

During preliminary discussions on this matter Council have indicated a preservation of current allowances (0 increase) due to the economic situation, as a result of the Covid-19 response.

15 June 2021

B.21.53 AUSTRALIAN LOCAL GOVERNMENT ASSOCIATION VOTING DELEGATE

Responsible Officer: Chief Executive Officer

File Number: S16-20-01

Attachments: Nil

Declarations of Interest:

John McLinden - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

At the March 2021 Scheduled Council Meeting, Council approved the attendance of the Mayor, Councillor Bill Moar, Councillor Nicole McKay and CEO John McLinden at the 2021 Australian Local Government Association Conference in Canberra.

Council needs to formally endorse one of the conference participants to exercise Councils voting rights at the National General Assembly. It is suggested that the Mayor, Councillor Bill Moar should be authorised to exercise Councils vote at this Assembly.

Council Plan Strategy Addressed

Governance and leadership - Effective advocacy and strategic planning.

Recommendation

That Council authorise the Mayor, Councillor Bill Moar to exercise the voting rights of the Swan Hill Rural City Council at the 2021 National General Assembly to be held in Canberra.

SECTION C - DECISIONS WHICH NEED ACTION/RATIFICATION

C.21.9 SIGN & SEAL REPORT

Responsible Officer: Chief Executive Officer

Attachments: Nil.

Declarations of Interest:

John McLinden - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The following documents and agreements have been signed and sealed by the Councillors and the Chief Executive Officer on the respective dates. Those actions require the ratification of the Council.

Discussion

During the course of any month Council is required to sign and seal a range of documents arising from decisions made on a previous occasion(s). Examples include sale of land, entering into funding arrangements for Council programs etc.

As the decision to enter into these agreements has already been made, these documents are signed and sealed when received, with Council ratifying the signing and sealing at the next Council meeting.

The following documents were signed and sealed since the last Council meeting:

No.	Document Type	Document Description	Date signed/ sealed
1058	Deed of renewal of Lease Lake Boga Pre-School (15 Lalbert Road, Lake Boga)	Between Swan Hill Rural City Council and Lake Boga Pre-School (15 Lalbert Road, Lake Boga)	18/05/2021
1059	Deed of renewal of Lease Lake Boga Bowling Greens	Between Swan Hill Rural City Council and Lake Boga Bowling Club Inc	08/06/2021

Conclusion

Council authorise the signing and sealing of the above documents.

Recommendation

That Council notes the actions of signing and sealing the documents under delegation as scheduled.

C.21.10 COUNCILLOR ASSEMBLIES - RECORD OF ATTENDANCE AND AGENDA ITEMS

Responsible Officer: Chief Executive Officer

File Number: S15-05-06

Attachments: 1 Councillor Assembly Attendance

Declarations of Interest:

John McLinden - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The following report provides details of Councillor Assemblies on a monthly basis.

Discussion

Whilst Minutes have not been recorded, Agenda items and those in attendance are reported and presented to Council.

An assembly of Councillors is defined as a meeting that is planned or scheduled at which at least half of the Council and one Officer are in attendance, and where the matters being considered that are intended or likely to be the subject of a Council decision.

No formal decisions can be made at an assembly but rather direction can be given that is likely to lead to a formal decision of Council.

Details of the most recent assemblies of Council are attached.
